FACEBOOK AND U.S. PATENT OFFICE HIDE GLOBAL SURVEILLANCE SCHEME?

USPTO DIRECTOR AND FORMER IBM-ER, DAVID J. KAPPOS, MENTORED SECRETLY BY NSA ADVISOR & LEADER TECHNOLOGIES' FIRST PATENT COUNSEL

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | **UPDATED APR. 05, 2014, PUBLISHED APR. 04, 2014** | PDF

UPDATE, APR. 9, 2014—A complete Leader v. Facebook document library with full citations has just been released. [CLICK HERE](#). The **"GRAND BAIT AND SWITCH"** that perverted justice in this case becomes quit apparent with the benefit of hindsight. A conclusion of judicial malfeasance is unavoidable. It is very apparent that an entire echelon of judges, bureaucrats, lawyers, bankers and politicians have been working together to protect their beloved Facebook (in addition to using the platform to manipulate the LOFO vote, stock markets, banking and establish a global surveillance system). Since certain quarters like to accuse their adversaries of unfounded "conspiracies," let's call it "pathological cronyism" instead. A duck is still a duck, no matter what you call it.

consider so secret about Director Kappos' biography that they are willing to claim Executive Privilege to hide it?

We asked veteran research librarians to find out more about David J. Kappos. While Kappos touts his 25+ years at IBM, little is actually known about his personal activities. Despite Kappos' high profile positions, including IBM Corporate Counsel and assistant general counsel, these librarians concluded that "the web has been cleansed of Mr. Kappos' history."

VETERAN RESEARCHERS: THE WEB INFO ON DAVID J. KAPPOS "HAS BEEN CLEANSSED"

These librarians are part of a prestigious library system. They do research for top government, education and business clients every day. They were suspicious of the complete lack of information about Mr. Kappos. "It's too clean," they concluded. "Someone doesn't want us to know about Mr. Kappos."

This is the third person's activity prior to certain dates that has been cleansed from the web. The first was Mark Zuckerberg's 2003-2004 activity that went "missing." The second was John P. Breyer, the shadowy Chinese venture capital figure behind son, James W. Breyer, Facebook's largest shareholder and managing partner of Accel Partners LLP, Fenwick & West LLP's client. We have documentation which shows that John P. Breyer founded IDG/Computer World and is a Hungarian refugee contemporary of George Soros. Ironically, despite Breyer's high profile association with Computer World, the world's computers seem cleansed of him.

The researchers then started consulting their archivist sources in Washington D.C. This is when the inquiry got interesting. One source confirmed that Mr. Kappos had been heavily involved with The National Intellectual Property Law Institute in the passage of the Federal Trade Secrets and the Economic Espionage Acts in 1996.

WARNING: "BE CAREFUL . . . THIS IS BEING WATCHED AT HIGH LEVELS."

NSA domestic spying tramples on inalienable American rights to privacy and property.

Then, in a turn right out of a Grisham spy novel, this Washington source cautioned the inquirers to "be careful" because queries about Kappos' involvement "are being watched at high levels." This source also said that at least three similar inquiries had occurred in the last few months. This person would not elaborate on what "high levels" meant. We posit this tidbit of information as a data point for the reader.

Of course, to us journalists, such warnings are like throwing red meat to a dog.

The librarians consulted Kappos' Senate confirmation hearing. [GPO Summary](#) | [HTML](#) | [PDF](#) (40MB). Surprisingly, Kappos failed to disclose his association with The National Intellectual Property Law Institute and its founder, Professor James P. Chandler, III, in his Senate testimony. This is a material nondisclosure. It appears to be an intentional omission.

[Testimony about Professor Chandler](#) figures prominently in the Leader v. Facebook trial transcript since Professor Chandler was Leader's chief patent counsel. We contacted Leader Technologies who confirmed that to their knowledge Professor Chandler was an important outside intellectual property counsel to IBM, and that Professor Chandler had initiated contact between Leader and IBM during the engagement. Leader said nothing ever came of the introduction, at least as far as they were concerned.

Patent No. 7,139,761 after Facebook had been found guilty of infringing the patent on 11 of 11 counts. Kappos failed to disclose (1) his close association with Leader's first patent attorney, Professor James P. Chandler, III, President, National Intellectual Property Law Institute; (2) his establishment of a USPTO Facebook page during the Leader v. Facebook proceedings; and (3) his \$1 million Vanguard holdings, one of the biggest pre-IPO Facebook stockholders.

Why didn't he disclose these obvious conflicts of interest? Because he likely already knew that the outcome was a foregone conclusion, orchestrated by his mentor, Professor Chandler, for the benefit of the NSA and its global surveillance strategy to exploit social networks.

UPDATE MAR. 25, 2014

FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in Leader v. Facebook?
2. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys. 
3. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
4. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment. 

BARACK OBAMA'S DARK POOLS OF CORRUPTION

[Click to enlarge](#)

Kappos also continued his failure to disclose this conflict of interest when he ordered the unprecedented third reexamination of Leader's well-tested seven-year old patent. This patent had already been thoroughly tested at trial where Leader proved that Facebook infringed on all 11 of 11 claims, and there was no prior art.

Yet magically, in the third patent reexamination, Facebook produced the same worn out prior art on which they had lost at trial and in two prior reexaminations. But this time, the patent examiner, Deandra Hughes, had an epiphany so clear and bright that she and the three-judge Board of Patent Appeals and Interferences (BPAI) panel invalidated the entire patent with the stroke of their administrative pens, without a hearing, and without a shred of legal justification. This action killed the other 24 claims of Leader's patent that had not been asserted at trial. The whitewash was complete.

SOCIAL MEDIA HAS A CREATOR, AND DESERVES TO BE PAID FOR THEIR PROPERTY.

The strategy is now clear. In their hubris, the Facebook cartel doesn't want Leader Technologies' patent rights to be associated with social networking. They want to give it away for free. And, they will corrupt any person or law necessary to achieve that objective. The trouble is, they are breaking the law, and we are a nation of laws, not of people and their often fickle notions.

Kappos also failed to disclose his [substantial Facebook holdings](#).

IBM – THE ORIGINAL “PATENT TROLL”

IBM has been highly criticized for prosecuting many of its “crappy patents” in the late 1990's.

In [Patently-O, on May 4, 2009](#), Dennis Crouch, Associate Professor, University of Missouri School of Law, wrote on his reservations about Kappos' nomination by President Obama:

“Patent pundit Greg Aharonian has oft complained about Kappos and his tendency to talk about patent quality and then charge forward with junky IBM patent applications.”

“Unfortunately, in the past 25 years, Kappos may have forgotten that most of the world does not operate like IBM. Thus, when he says that ‘people no longer innovate individually’ or that ‘many new innovations require investments of unprecedented size,’ I worry that his vision is skewed.”

Greg Aharaonian implied that David Kappos was the original patent troll when he wrote:

“Last week IBM was issued its usual batch of patents, many of which are crap - crappy patents whose sole value is to clog the PTO's patent examination pipelines to the detriment of everyone else. A patent application policy actively embraced by David Kappos.”

What are these facts telling us?

A commenter asked last week, “Who's side was Professor Chandler on?” Simple geometric logic says that Chandler was deeply involved in IBM's litigation of “crappy patents” before Leader Technologies came along. Is the modern “patent troll” actually the brainchild of Professor Chandler's advice to IBM? As the commentators point out, this strategy was good for IBM's revenues, but bad for the individual inventor who doesn't have the PR machine or influence or large prescence at the Patent Office to fight the pejorative “patent troll” moniker. Further evidence of this practice was revealed with [IBM sold 750 “crappy patents” to Facebook](#) on Mar. 22, 2012, and on Jan. 31, 2014, [IBM sold Twitter sold 900 more “crappy patents.”](#)

What good would these old patents be to Facebook and Twitter except to continue Professor Chandler's big infringer patent trollism, on steroids?

Facebook's opening PR salvo against Leader Technologies, after Leader filed the Leader v. Facebook patent infringement lawsuit on Nov. 19, 2008, was that Leader was a patent troll. As is typical for unscrupulous people and companies, they accuse the victim of their crimes and force them to prove a negative. Ahhm. Leader proved it.

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.
Real American inventors need your support.

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial inventor's simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

is: "Did Chandler throw his client, Leader Technologies, under the bus to enable his clients like IBM, Microsoft, Fenwick & West, and other big infringer allies to steal Leader Technologies' innovations under some misguided notion of the greater good?"

Is this close association between Professor Chandler and David J. Kappos the "smoking gun" that the Patent Office is hiding?

Since not a single Patent Office biography of an employee associated with the Leader v. Facebook reexaminations has been produced, this seems likely. Because, in the late 1990's, our sources knew from first hand experience that Congress required that Chandler consult to Congress, the White House, the Judiciary and even foreign governments on implementation of the Federal Trade Secrets Act. Political associations with Chandler would certainly have been sought by Kappos, corporate types being politically predictable that way.

Professor Chandler's association would also explain why the White House claimed executive privilege to stonewall the Patent Office FOIA requests. They would rationalize the need to preserve Chandler's association with national intelligence strategies. However, once the researchers verified Kappos's membership in Chandler's National Intellectual Property Law Institute from two independent sources, this verified that Professor Chandler's associations were public information.

Ohio innovator Leader Technologies did not fit Kappos' (and Chandlers?) vision of "**people no longer innovate individually.**" This Freudian comment contradicts mountains of patronizing Kappos verbiage about his supposed priority for the individual inventor. His only priority seems to be to wrest control of small inventor creativity for the benefit of his deep pocket cronies. Patenting in American has become little more than a way for big firms like IBM to influence the USPTO, for lawyers on both sides to generate billable hours, and for the judges to help their lawyer friends.

IBM CREATED THE "PATENT TROLL" PEJORATIVE AS A HOAX TO DECEIVE CONGRESS INTO PASSING THE AMERICA INVENTS ACT—THE GREATEST ENEMY TO TRUE INNOVATION EVER CONCEIVED.

The numbers and facts don't lie. IBM proudly claims its leadership as the highest achieving patent recipient in the U.S. for the past twenty-one (21) years! Their huge footprint at the USPTO certainly gives them leverage and may even "crowd out" the little guys like Leader, and their opportunities to earn patent approvals. If there are about 250 working days at the USPTO per year, this means that EACH DAY they allowed over **27 patents per day to IBM ALONE**. Facebook's investor Microsoft was awarded 2,660 in 2013.

Kappos and U.S. CTO Aneesh Chopra championed the America Invents Act which packed the law with volumes of IBM-friendly bludgeons against the small inventor. Tellingly, both Kappos and Chopra held volumes of Facebook interests before the Facebook IPO. Chopra gave his approval over the claim in HealthCare.gov that Leader's social networking invention is "open source." This deception casts a deathly pall over the entire Obamacare implementation.

Kappos assigned former Microsoft employee, Stephen C. Siu, as lead judge in the third Leader Technologies reexamination. Hmmm.

Professor Chandler's 1995 Congressional testimony reveals his close association with the NSA and the intelligence community. This is confirmed in his **online biography** where he discloses that he was appointed to the "National Infrastructure Assurance Council (NIAC), a council established by Executive Order in July 1999."

Both Kappos and Chandler are alumni of the University of California, Davis.

This would not be the first time that IBM has been centrally involved in collecting information about a citizenry. IBM was prominent in collecting information about Jews and others in Nazi Germany.

IBM's Founder Thomas J. Watson, Sr.'s was willingly complicit in the secret collecting of census data about German Jews using IBM machines for Adolf Hitler. Hitler created the German Eagle Order medal during this time, and Watson was the first to receive it.

Thomas J. Watson, Jr., wrote in his autobiography, *Father, Son, and Company*, on page 55:

"At the end of the Congress [of the International Chamber of Commerce in Berlin in June 1937]...the Nazi government gave Dad [Thomas J. Watson, Sr.] the Merit Cross of the German Eagle. This was a medal that had just been created for 'honoring foreign nationals who have made themselves deserving of the German Reich.' I was present at the ceremony at which Hjalmar Schacht, Germany's economic minister, draped the thing around Dad's neck. It was a white cross framed in gold and decorated with swastikas..." "Dad willingly accepted it at the time, but in 1940, after Hitler had taken over much of Europe, Dad sent the medal back with an angry note..."

NOTE: This sidebar was contributed by an American businessman who has two close relatives who were brutally murdered in the gas chambers of the Auschwitz concentration camp after being tagged by Hitler's IBM computers.

Are all these connections just coincidental? Mathematically, the odds of this are now nearly zero.

FACEBOOK—A MORE COST-EFFECTIVE SPY MACHINE

Eric Snowden revealed intimate associations among the NSA and Facebook, Google, Verizon, AT&T, etc. As expected, now that the ties are public, people like Zuckerberg act out their hollow denials like Shakespeare's Queen Gertrude in act III, scene II of Hamlet: "The lady doth protest too much, methinks."

Fenwick & West LLP's associations with [In-Q-Tel](#), the CIA's venture capital arm, are well known. Equally well known in Washington D.C. is Bill Fenwick's association with Professor Chandler, confirmed by numerous sources. Leader Technologies has confirmed in various interviews that they had engaged Fenwick & West LLP in 2002-2003 at Professor Chandler's recommendation.

LEADER TECHNOLOGIES: THROWN UNDER THE BUS BY CRONY LAWYERS—IS THIS WHAT THE VIOLATION OF LEADER'S PATENT PROPERTY RIGHTS WAS ALL ABOUT?

Was Ohio innovator Leader Technologies thrown under the bus by their lawyers? It appears that the intelligence world had grand designs for Leader's invention. It appears that Leader's lawyers Chandler and Fenwick may have given Leader's invention source code to Fenwick & West LLP's client, James W. Breyer, Accel Partners LLP, Palo Alto, CA, to exploit.

Is this because these networks were all given Leader Technologies' source code at the same time by Fenwick & West LLP?

Former Fenwick junior associate, Parker Zhang, was recently elevated to "Head of Patents" at Baidu. Two of the three largest investors in Baidu are T. Rowe Price and Baillie Gifford, which just so happen to also be the largest investors in Facebook.

Fenwick's sister law firm in these crimes, Gibson Dunn LLP, withheld [28 Zuckerberg Harvard hard drives and emails](#) from Leader Technologies' during discovery. They said they were lost, yet they magically reappeared on July 18, 2012, one day after the Leader v. Facebook Federal Circuit denial.

NSA/FACEBOOK SPYING: TAKE ADVANTAGE OF THE UNSUSPECTING

It appears that Facebook was the brainchild of an intelligence world, championed by Professor James P. Chandler, III, that was over-eager to fulfill their dreams of simultaneous global surveillance using Leader Technologies' innovations.

Too bad these actors had to steal real American innovations and tarnish respect for cherished American ideals of property in the process.

Now it's time to fix these injustices and provide the appropriate compensation to the true creators of the technology.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. REID AND PELOSI HELPED FIX JUDGES IN LEADER V. FACEBOOK

CORRUPT OBAMA APPOINTEES ALSO FUELED THE HEALTHCARE.GOV DEBACLE, NSA AND AP SPYING, IRS MEDDLING, BENGHAZI STONEWALLING, AND RUSSIA POLICY FAILURES

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED MAR. 28, 2014 | PDF

(MAR. 26, 2014)—Our recovery effort after the Scribd censorship highlighted new evidence about Congressional leaders **HARRY REID** and **NANCY PELOSI** that was previously overlooked.

The Leader v. Facebook case had four main judges. District Court judge **LEONARD P. STARK**, and three Federal Circuit judges: **ALAN D. LOURIE**, **KIMBERLY A. MOORE** and **EVAN J. WALLACH**. This doesn't count the Supreme Court and the Federal Circuit En Banc petitions.

Hindsight shows clearly that Reid and Pelosi helped President Obama stack the Leader v. Facebook courts with crony judges, namely district court judge **LEONARD P. STARK** and Federal Circuit appeals judge **EVAN J. WALLACH**.

REID EMPLOYED WALLACH AS CHIEF COUNSEL

Senator Reid's collusion is readily apparent. He had employed Wallach as his chief counsel. Curiously, Reid nominated Wallach to the Federal Circuit just **two (2) days** after Leader Technologies filed its Leader v. Facebook appeal at the Federal Circuit even though Wallach has no patent law experience.

PELOSI WAS STARK'S MATRON

Representative Pelosi's duplicity is evident with 20/20 hindsight—after analyzing her **2012**

FIG. 1—NANCY PELOSI AND HARRY REID STACKED THE COURTS IN LEADER V. FACEBOOK.

At 5,600 to 1 odds, two Obama cronies of Reid and Pelosi were assigned to the Leader v. Facebook patent infringement case. Hindsight is 20/20. These judges were installed to guarantee a win for Facebook prior to the Facebook IPO. Pelosi, Reid and their cronies were substantial beneficiaries.

Pelosi is heavily invested in Baidu, Inc. China into which her Facebook cronies have poured tens of billion of dollars to control the Chinese social networking market. Curiously, Baidu's CEO and Facebook's Mark Zuckerberg became CEOs of their respective companies the very same month—Jan. 2004—just two months after Ohio innovator, Leader Technologies, Inc., finished debugging the critical modules of Leader's social networking invention.

At trial, Facebook's expert witness, **Dr. Saul Greenberg**, lied about this very module and misled the jury. At the same time, Judge Leonard P. Stark blocked the jury from hearing a proper Leader defense which would have included expert testimony from Leader's patent attorney, **Professor James P. Chandler, III**, President of the National Intellectual Property Law Institute. Professor Chandler oversaw Leader's invention secrecy protections. He would have handily debunked Facebook's fabrications from personal knowledge of Leader's strenuous work, guided by him as a Leader director and advisor, to protect the invention. The unrefuted court record attests to these practices.

Tellingly, **Nancy Pelosi also holds investments** with In-Q-Tel, the CIA's venture capital fund, and NBC Universal. NBC is a prime mover in the inordinately pro-Obama reporting of the Mainstream Media. NBC is also closely aligned with Baidu, Inc. China as well.

Pelosi's former national security advisor, **MIKE SHEEHY**, left Pelosi just as her term as Speaker of the House was starting, in March 2009. This was just three months after *Leader v. Facebook* started. Sheehy joined the Washington D.C. lobbying firm, McBee Strategic LLC. McBee was teamed with Facebook's attorney, Cooley Godward LLP. Cooley also had their partner, Donald K. Stern, in the White House advising on judicial appointments. (These Facebook relationships were never disclosed by Stark.)

In Jan. 2010, just a week after Facebook's disastrous performance in the *Leader v. Facebook Markman* Hearing, veteran judge Joseph J. Farnan was forced into retirement and Obama nominee, Magistrate Leonard P. Stark, was assigned, just one month before trial. This was surprising since Farnan had expressed his interest in taking the case to trial on numerous occasions. The same month as Stark's ascendancy from obscurity, Facebook's Cooley Godward LLP trial counsel, Michael G. Rhodes, was appointed chief counsel at Elon Musk's Tesla Motors, Inc. Musk is a notorious Obama donor who had just received \$465 million in energy stimulus funds. The incestuous back scratching is apparent with hindsight.

Tesla Motor's funds were recommended by the McBee Strategic - Cooley Godward partnership led by Nancy Pelosi's man—Mike Sheehy.

Why was veteran judge Joseph J. Farnan forced to retire just one month before trial? Because Facebook knew they were going to lose in a fair fight.

OHIO INNOVATOR, LEADER TECHNOLOGIES, WAS DENIED BLIND JUSTICE BY REID'S AND PELOSI'S INTERFERENCE TO PROTECT OBAMA "LIKES" AND LINE THEIR POCKETS WITH IPO WINNINGS

This collusion explains how Facebook beat the odds that two of the judges in *Leader v. Facebook* just happened to be Obama nominees.

The odds of picking Judge Leonard P. Stark were 1:7, at best

There are seven judges and magistrates at the Delaware District Court. Therefore, the odds of selecting Stark out of a hat for *Leader v. Facebook* were 1 in 7. We say "at best" because the pool of candidates is not limited to active judges. Judges emeritus can be selected in special circumstances, like conflicts of interest. So, the odds were actually lower.

The odds of picking Judge Evan J. Wallach were 810 to 1 —0.10%

The Federal Circuit has 18 circuit judges and Wallach was one of about 45 Democratic chief counsels from which to choose. The odds of Wallach's appearance on the bench in *Leader v. Facebook* were 1 in $18 \times 45 = 810$ choices. This number is higher since the pool of candidates was likely much higher than 45. In other words, the selection of Wallach had a 1 in 810 chance of occurring, $1/18 \times 1/45 = 1/810$.

"A noble society must demand blind justice, and must toss out any judge who violates the public trust, even once."

PICK A JUDGE, ANY JUDGE

Justice is supposed to be blind. The odds of randomly picking two Obama appointees in *Leader v. Facebook* were at least 5,600 to 1—the same odds as randomly picking two Obama appointees out of this MLK crowd.

- Two Policy Changes That Will Make America More Democratic (and less contentious), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to

The odds of the two Obama nominees being selected was 5670 to 1—0.02%

Therefore, the odds that two Obama nominees would be assigned to *Leader v. Facebook* were 1 in 5670 or 0.02%, at best.

By way of analogy, the odds of picking Stark and Wallach were the same as randomly picking their names out of 128 decks of cards. See Fig. 3.

FIG. 3— The odds of picking two Obama appointee cards shuffled among 128 decks of cards is 1 in 5670 or 0.02%. The federal court system allegedly did just that. It blindly selected Leonard P. Stark and Evan J. Wallach. And, it was supposedly just dumb luck that these two judges were both Obama appointees closely associated with Nancy Pelosi, Harry Reid and Facebook's Cooley Godward LLP law firm in *Leader v. Facebook*.

PELOSI VALUES HER HOLDINGS AT UP TO \$185 MILLION, NOT COUNTING 10 UNDISCLOSED HOLDINGS

Pelosi holds funds with direct investments in these members of the now familiar Facebook cartel:

1. Facebook
2. Baidu, Inc. ("The Chinese Facebook")
3. QualComm (Cooley Godward LLP, chief counsel)
4. Accel Partners LLP
5. IDG Ventures (James W. Breyer, Facebook, Accel Partners LLP, IDG-Accel China)
6. Venrock (Robert P. Kocher, MD, Obamacare)
7. Hambrecht (Ann H. Lamont)
8. Meritech (Ann H. Lamont)
9. In-Q-Tel (CIA)
10. Microsoft
11. IBM
12. NBC Universal
13. Comcast (NBC)
14. Goldman Sachs
15. Morgan Stanley
16. T.Rowe Price

Through \$7 million in Matthews International Capital, Pelosi holds major interests in Baidu, Inc., sometimes called "The Chinese Facebook." Baidu and Facebook are quit similar. Is that just coincidental?

Here are some facts about Baidu, Inc. China:

- CEO, **ROBIN YANGONG LI**, was appointed in Jan. 2004, **the same month** that Mark Zuckerberg purportedly programmed Facebook at Harvard. Facebook launched on Feb. 4, 2004 after Zuckerberg said he developed the whole system in "**one to two weeks**." By contrast, *Leader Technologies* said it cost them \$10 million and 145,000 man-hours to actually develop the innovations now called "social networking." In court, *Leader* proved that Facebook was guilty of all 11 of 11 infringement claims.
- Robin Yangong Li established a Cayman Island presence to hold his Baidu stock, naming the company "Handsome Reward."
- Chief of Patents, **PARKER ZHANG**, was a rookie attorney, not even a partner, at Fenwick & West LLP in Palo Alto, CA before being catapulted to the top intellectual property job at Baidu.
- **T. ROWE PRICE** and **BAILLIE GIFFORD**, along with Robin Li, are the top three largest shareholders in Baidu. Baillie Gifford and T. Rowe were the 2nd and 4th largest fund investors in the Facebook IPO. Baillie Gifford "advised" Vanguard who was the 9th largest purchaser of Facebook stock.
- IDG Capital Partners appears to have simultaneously directed the birth of **BAIDU (CHINA)** "The Chinese Facebook"), **FACEBOOK (US)** and **VKONTAKTE (RUSSIA)** ("the Russian Facebook"). Russian oligarch Alisher Usmanov invested billions of "dubious" origins into Facebook private "dark pools" pre-IPO stock facilitated by Goldman Sachs, who was also Usmanov's partner in Moscow. This **ALISHER**

just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

USMANOV'S activity pumped Facebook pre-IPO valuation to \$100 billion. Usmanov also owns 52% of VKontakte.

- Former Treasury Secretary and Obama bailout director, **LAWRENCE "LARRY" SUMMERS**, mentored Usmanov's co-oligarch, **YURI MILNER**, along with Facebook COO, **SHERYL K. SUMMERS**, when he was Chief Economist for the World Bank. Pundits believe Summers manipulated failing Soviet markets and created the current Russian oligarchies, including Usmanov.
- IDG Capital Partners is led by the Breyer family: **JOHN P. BREYER** (father) and **JAMES W. BREYER** (son).
- James W. Breyer is Facebook' largest shareholder and together with Mark Zuckerberg elicited Stanford students to write apps for the stolen Leader Technologies' platform on Oct. 22, 2005. See Mark E. Zuckerberg and James W. Breyer solicitation of Stanford Univ. students, Oct. 26, 2005, Stanford Ctr. for Prof. Dev, Video: [YouTube](#) and [FBCP](#); See also the [Transcript](#).
- Facebook's law firm, **GIBSON DUNN LLP**, withheld **28 ZUCKERBERG HARVARD HARD DRIVES AND EMAILS** from Leader Technologies, saying they were "lost." Yet magically, **one (1) day** after the Federal Circuit denial of Leader's petition, they produced all 28 in Ceglia v. Zuckerberg. What sins are they hiding? Why have the federal courts been so cooperative in preventing all access, even when after they were "found."

Pelosi has up to \$500,000 invested in Granite Ventures who is co-invests with the CIA (In-Q-Tel), Accel Partners LLP (James W. Breyer), IDG Capital Partners (James W. Breyer and John P. Breyer), Venrock (Robert P. Kocher, MD--Obamacare), Ann H. Lamont (Obamacare), Meritech (Facebook, Obamacare), Accenture (Obamacare), Microsoft and IBM.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 [here](#).) He also contradicted his own instruction to Leader to answer

JUDGE FIXING IS A CRIME

Equal treatment before the law is a sacred American democratic value. *Leader v. Facebook* has exposed serious flaws in the administration of justice in America. Citizens have no hope

of justice, on any topic, when the leaders of the three branches of government all collude, as occurred here.

In *Leader v. Facebook*, the Executive Branch conspired with the leaders of the Legislative Branch (Pelosi and Reid) to fix a court case managed by the Judicial Branch. The only honest actor was the jury, which when given proper evidence, ruled in *Leader Technologies'* favor on all 11 of 11 counts. They ruled that Facebook is in "literal infringement" of *Leader's* patent.

However, the guilty ruling was overwhelmed by attorney-fabricated sophistry on appeal, by dozens if not hundreds of colluding lawyers who know better, but who, like their counterparts at the White House, Patent Office and Legislature, were lavished riches that have seared their consciences with a hot iron.

CONGRESS, THE PEOPLE'S BODY, CAN MAKE THIS RIGHT

The Founders thought a time might come when the checks and balances system itself might become corrupt by party interests. In that circumstance, they knew the normal avenues of appeal would not work. Therefore, they vested ultimate power in Congress, the People's body. There the representatives of the citizenry had the power of property and purse.

REQUEST FOR CONGRESSIONAL INTERVENTION

We encourage each and every one of our freedom-loving readers to submit the Request for Congressional Intervention. Our property rights and those of our children and grandchildren are teetering over a precipice. If *Leader's* rights are not fully restored and made right, then all of our rights will be next.

These bad Facebook actors are waiting to see if American citizens even care about their Constitutional rights any longer. They have seen how easily they give up their privacy to titillation and chronic distraction. *Leader v. Facebook* is a test.

If America lets them steal *Leader's* social networking invention, then nothing will stop them.

Write your representatives folks. Don't procrastinate.

Thank You!

A big thank you to AFI volunteers for helping us get the hundreds of censored Scribd documents relinked and back up. We are reminded of the Book of Genesis 50:20: "you meant evil against me, but God meant it for good in order to bring about this present result" (NASB).

We were impressed by the amount and quality of the hard evidence of wrongdoing now available. We took this document recovery opportunity to package up the evidence for even easier access. We also updated the AFI sidebar. So, while the Scribd principals undoubtedly meant to slow us down, the opposite has occurred. :-)

MASSIVE WASHINGTON CORRUPTION EXPOSED BY LEADER V. FACEBOOK

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his [Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the

NEW, MAR. 18, 2014—SEE UPDATED SIDEBAR: INCLUDES CORRUPTION EXPOSÉ INFO CENSORED BY SCRIBD LAST WEEK

NEW, MAR. 16, 2014—EDITORIAL: WHY WE MUST OPPOSE THE PRIVITIZATION OF INTERNET DOMAIN NAMING

PUBLIC SERVICES RELATED TO THE UNIVERSAL COMMON GOOD CANNOT BE PLACED IN PRIVATE HANDS.

The censorship we just experienced by Scribd (see below) shows why. For example, if these unscrupulous Scribd principals were given control of Internet domain naming, they could (and probably would) use that power to cut off access to the Internet to any person or organization with whom they disagree.

FIG.1—Does the Facebook Cartel and the Obama administration plan to seize control of the Internet before this administration leaves office? Control of Internet domain names would put them in ultimate control of access.

Cartoon: Joyreactor.com

Scribd could do this by simply deleting or altering the Internet master directory globally. In layman's terms, domain name management is the Internet equivalent of a super phone directory. It manages all addresses on the Internet. If you aren't on that list, or the entry is incorrect, others trying to browse to your website would not be able to because your address is missing or wrong. This directory is updated many times a day, all over the planet on every hosting server (the "server" computer that hooks your computer to the Internet).

The group maintaining and controlling this master Internet directory must be non-political, non-commercial, and scrupulously honest. The future of democracy depends upon a strictly unbiased domain name management system.

HERE'S HOW THE DNS (DOMAIN NAME SERVICE) DIRECTORY WORKS.

When you type a domain name into your browser, for example, "http://www.whitehouse.gov," your computer first goes to your ISP (Internet Service Provider, like Road

FIG.2—If the DNS lookup finds a missing or corrupted entry for your website, the user is prevented from navigating to your website. The DNS lookup directory is a single point of ultimate power and control over the operation of the Internet. It cannot be permitted to be put into private

secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at *Donna Kline Now!* Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

UPDATE 3/25/14

FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

FULLY UPDATED MAR. 25, 2014 IN THE WAKE OF THE SCRIBD CENSORSHIP:

- 1 WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v Facebook*?
- 2 JUSTICE ROBERTS MENTORED** Facebook attorneys
- 3 JUSTICE ROBERTS HOLDS** substantial Facebook financial interests
- 4 JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests

Runner, Comcast, etc.). Your ISP maintains a constantly updated copy of the DNS (domain name service) master directory. The ISP looks up the domain name and figures out the street address on the Internet associated with it.

hands where censorship of one's adversaries is an inescapable temptation. Power corrupts. Absolute power corrupts absolutely.

Graphic: lgvita.com

For the White House, the Internet DNS street address is "23.45.84.11." The more technical address is "http://23.45.84.11." This number is unique to the White House. If that White House address is missing, or wrong, then my computer cannot navigate to the White House website. Unconscionably, the White House is proposing to put management of this critical DNS master directory into private hands. We are confident that their plan is to put it within the control of the Facebook Cartel before President Obama leaves office.

Without this DNS master directory, the Internet goes dark. If it is scrambled or sabotaged, the group controlling that master directory controls who gets to read what. It is a power that MUST be managed by all of us, not just by a few.

If unscrupulous actors are given control of DNS directory management, this could be their hypothetical response to your complaint if they didn't like your website and deleted your address from the directory (and thus prevented access to your website): "Gee Beav, we don't know what happened to our file. We'll look into it. Sorry for your bad luck."

A POWER DICTATORS HAVE ONLY DREAMED OF

Their "investigation" could go on forever. This would put tools of censorship into private hands that every past totalitarian state has only ever dreamed of. In other words, this hypothetical Internet power broker could merely pretend to do the right thing. Any lawsuits against them would take years, as Facebook has proven in Leader v. Facebook.

Given the current subservience of U.S. regulators to the Facebook Cartel, this would effectively create a situation where the private contractor could pretend to comply with regulation and the regulators could pretend to regulate them. All the while, lawlessness and the suppression of free expression would rule. This would effectively silence all opposition to those willing to bribe and coerce their way to power and control over the Internet.

Democracy requires a diverse accountability structure (separation of powers)—so that no universal public interests are put into essentially unaccountable and un-elected private hands. In our opinion, the administration's current attempt to privatize Internet domain naming will put the future of the Internet into the hands of the Facebook Cartel and must be stopped at all cost. Free democratic communication hangs in the balance.

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as

his close association with one of Facebook's largest

shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James

So much for the "freedom" of the digital "cloud." BTW, Scribd is a "free" service, like Facebook. Until that is, their task masters don't like your ideas. The power of a cloud provider to unilaterally block a user from accessing their data because they don't like your point of view illustrates why "the cloud" is an unreliable service for fundamental democratic principles of privacy, property, free speech and freedom.

SEC CHAIR MARY L. SHAPIRO INTRODUCED HER WHOLE FAMILY TO THE AMERICAN PUBLIC ON JAN. 18, 2009

Excerpt from page. 11, S. Hrg. 111-32, U.S. Senate, Nomination of Mary L. Schapiro to be Chairman of the Securities & Exchange Commission, Jan. 18, 2009. Ms. Schapiro introduced her family to the American public—as recorded for posterity and public use at the Government Printing Office.

Do you swear or affirm that the testimony that you are about to give is the truth, the whole truth, and nothing but the truth, so help you, God?
 Ms. SCHAPIRO. I do.
 Chairman DODD. And do you agree to appear and testify before any duly constituted Committee of the U.S. Senate?
 Ms. SCHAPIRO. I do.
 Chairman DODD. Welcome. It is nice to have you with us. Before we hear your statement, I think I noticed some people behind you who might be members of your family, or some guests in the securities area here, maybe both. Do you want to introduce them?
 Ms. SCHAPIRO. I would be happy to. Thank you, Senator. My daughter, Molly Cadwell, my daughter, Anna Cadwell, and my husband, Chas Cadwell.
 Chairman DODD. Welcome. We are delighted to have you with us here today. Are you missing school today, are you, for this?
 [Laughter.]
 Senator SHELLEY. Oh, yes. They are smiling.
 Chairman DODD. So the longer the hearing goes, the less time you have to go to school? Is that how it works?
 [Laughter.]
 Ms. SCHAPIRO. There is a certain math test that is being avoided today.

AFI documents on Scribd were summarily deleted on Friday, Mar. 7, 2014. All of them. Even things like the financial reports of government officials and Congressional Briefings. If you try to access a document now, Scribd posts a boldface lie: "Document deleted by owner." How Orwellian. This in-your-face conduct destroyed the trust of hundreds of thousands of readers who have relied on the site to access important evidence in the Leader v. Facebook judicial misconduct investigation.

FOUR PINOCCHIOS FOR SCRIBD

Frankly, we expected this. Scribd has been tying itself to Facebook for some time. This is especially interesting since AFI documents have had about 250,000 reads so far. Point of interest, several of Dr. A's Federal Circuit filings had almost 20,000 reads. This censorship should be reported, publicized and demands made for Scribd to turn the documents back on. It appears they just flipped the lights off. They are now obstructing Congressional investigations and the American public's right to know the truth about the Leader v. Facebook judicial misconduct.

What dog does Scribd have in this hunt unless they are running cover for their Facebook cronies? Hmmmm.

The Request for Congressional Intervention has had almost 1,800 reads on Scribd already. Dr. Robert P. Kocher's (the 38-year old Obamacare architect; just three years out of residency) "lost" financial report had 1,800 reads in a week. Chief Justice Robert's financial disclosure had about 8,000 reads. No worries. We'll redirect links to all the documents. A number of libraries have all the documents. If you Google the document name you are looking for, you can probably find other instances. If you need a document quickly, post your request on the Comments or email us at amer4innov@gmail.com.

NEW, MAR. 13, 2014: Dr. Lakshmi Arunachalam's Friend of the Court (amicus curiae) briefs with over 20,000 reads were deleted by Scribd. They're b-a-c-k.

- **Original Amicus Curiae Brief (GREEN BRIEF)** (Links updated, see updated note about doctored docket and 24-hour denial turnaround. Hindight shows that Clerk Jan Horbaly was running cover for the judges. Dr. A. surprised the conspirators and they fumbled the ball. Remember, Facebook was only four weeks into their IPO. Clearly, the judges were protecting their Facebook stock.)
- **Response to Fed. Cir. Bar Association** (Links updated. Note the incontrovertible proof of Judge Kimberly A. Moore's duplicity.)
- **Motion to Compel Financial Conflicts Disclosure** (Links updated. Note Judge Moore's and Judge Lourie's holdings. These are only a portion of the now known Facebook holdings.)

Wait, there isn't even a smidgen of corruption here (these are, after all, Pres. Obama's Silicon Valley tech cronies behind this censorship).

P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. NEW, MAR. 7, 2014: STRATEGY TO COMPROMISE CONGRESS

LONGTERM UNEARTHED

Scribd's suppression of free speech today occurred just as AFI was provided a copy of a Congressional Request. The request contained the shocking, but believable, notion in the cover letter that the Facebook Cartel has likely been working for years to compromise members of Congress with unknowing financial conflicts of interests—like time bombs—in the form of cleverly concealed Facebook Cartel stocks inside colluding mutual funds. [Click here to read the Congressional Request Cover Letter.](#)

THE DIGITAL "CLOUD" IS A TOXIC ETHICAL WASTELAND.

This is a good lesson for why we cannot place our hope in the Facebook Cartel's one-stop-shop digital "cloud" for the future of democracy. Sounds good on paper, but it assumes honesty, integrity, good faith and respect for one's fellow man, for which these people are in short supply. Power corrupts. Absolute power corrupts absolutely. The fewer hands into which we put our digital futures, the greater will become censorship and attempts to control the "narratives" of public discourse. 1984 author George Orwell was right. You know you have arrived on the doorsteps of totalitarianism when telling the truth becomes an act of courage. All the links are updated in this post. We'll have to re-link a number of the supporting documents in the Request for Congressional Intervention.

Fight the good fight. Your efforts are working.

(MAR. 02, 2014)—OBAMACARE ARCHITECT'S 2009 FINANCIAL REPORT RECOVERED—PROVES OBAMACARE IS WEDDED TO THE FACEBOOK CARTEL

AFI investigators have uncovered the 2009 financial disclosure for **ROBERT P. KOCHER, MD**, the 38 year old chief architect of Obamacare. The Obama administration has removed this report from the Office of Government Ethics website. The report is a smoking gun.

It shows that Dr. Kocher held 37 Facebook "dark pools" funds in 2009—practically all of his holdings. These funds include Obamacare-specific holdings in CGI, Athenahealth, Castlight Health, Facebook and Accenture. He was clearly an insider and was in on the long-promised Facebook IPO bonanza for himself, his cartel buddies, and his wife, who uses multiple names: Cindy Chen, Chao Chen, Chao H. Chen, Chao I. Chen, Cindy C. Chen and Ci Chen, according to public records.

FIG. 1—S-L-I-M-E-D. Here's how our fact checkers felt the last few days after reading this exposé on widespread Facebook corruption in Leader v. Facebook and related matters. Photo: Wikia.

Robert P. Kocher, MD, Director, Castlight Health, founded by U.S. CTO, Todd Y. Park; former member, National Economic Council; special adviser to Barack Obama on Health Policy (chief architect of Obamacare) Photo: Washington.edu.

The disclosure reveals that Dr. Kocher—as the healthcare policy director at the National Economic Council—was making recommendations for Obamacare to use services in companies where he stood to gain financially.

Such conflicts of interests are specifically forbidden by the Standards of Ethics for Employees of the Executive Branch. In addition, Dr. Kocher signed an ethics pledge committing not to engage in such conduct. [Click here to read Robert P. Kocher's 2009 Financial Disclosure.](#) The White House removed Dr. Kocher's signed ethics pledge from public review as well.

NEW MAR. 06, 2013: Robert P. Kocher 2009 Financial Analysis Excel Spreadsheet File ([download here](#)).

Remarkably, Dr. Kocher was 38 years old and only three years out of medical residency when he was given these heady responsibilities. Did the appointment of this inexperienced young physician doom Obamacare to the fiasco it has become? Figuratively speaking, the President chose a boy to do a man's work.

It appears that Dr. Robert P. Kocher was the Mark Zuckerberg-esque boy band leader for healthcare "reform," along with Baidu China's Robin "Handsome Return" Yangong, and Russia's Yuri "Money Launder" Milner. All the same Facebook Cartel actors are present. America, China, and Russia; what are these peoples' designs? They must be stopped before they do more damage to the world economy.

Readers are encouraged to send the **REQUEST FOR CONGRESSIONAL INTERVENTION** to your members of Congress with urgency. See below.

(FEB. 21, 2014)—Several days ago, AFI received a pre-release copy of a request headed to Congress asking them to intervene in what amounts to federal confiscation of private property. Actors in the scheme include the now familiar players: Facebook, Facebook's PayPal Mafia handlers, HHS, HealthCare.gov, Barack Obama, the White House cabinet revolving door, Wall Street and even the Congressional website.

WASHINGTON, WALL STREET AND SILICON VALLEY CORRUPTION ARE OUT OF CONTROL

Our researchers have spent the last few days verifying the research. Corruption is a sickly animal. Any one item of data doesn't necessarily prove a theory, but the sum total of this information creates visions of being slimed in the movie Ghost Busters. If you had any doubts about the level of corruption in Washington D.C., this document should put your doubts to rest.

We need the weekend to absorb what we've learned before we give our perspective. We didn't want to wait to get this Congressional Request in your hands. We have embedded it below, then in the caption we have included other sites where you can download the PDF and HTML. Here are those downloads. Try the HTML, it loads fast. NEW: FIRST IMPRESSIONS OF THE CONGRESSIONAL REQUEST

This Congressional Request contains new evidence connecting **CONGRESSWOMAN NANCY PELOSI** and **SENATE MAJORITY LEADER HARRY REID** to the judicial corruption in Leader v. Facebook. This doesn't even take into account the public knowledge that both Pelosi's and Reid's families have made out like bandits from various government stimulus programs.

WITHIN ONE WEEK after the pre-trial Markman Hearing in which 25-year veteran, Judge Joseph J. Farnan, took Facebook to the woodshed, he suddenly announced his retirement. Farnan was replaced by Magistrate **LEONARD P. STARK**, an Obama nominee. Stark's appointment had been recommended by Obama's Cooley Godward LLP "justice adviser," Donald K. Stern.

Despite Stark's conflict of interest with the Cooley firm, he nevertheless allowed Cooley's attorneys, including Michael G. Rhodes, to argue for Facebook.

Rhodes had just been appointed chief counsel for Tesla Motors, Inc. Tesla had just received \$465 million in energy stimulus funds on the recommendation of Mike Sheehy, former national security adviser to then Speaker of the House **NANCY PELOSI**. Stark also held substantial Fidelity holdings.

Congresswoman Nancy Pelosi

WITHIN TWO DAYS of Leader filing its appeal with the Federal Circuit, Pres. Obama nominated **EVAN J. WALLACH**. Wallach was Senate Majority Leader **HARRY REID**'s former general counsel. Wallach also held substantial Fidelity holdings. Cooley's Donald K. Stern continued his stellar "justice advice" in Wallach's appointment.

Senator Harry Reid

Despite their relationship and despite the financial conflicts of interest, both Judge Stark and Judge Wallach sat in judgment in Leader v. Facebook, obviously to give their sponsors the verdict they demanded.

Reid and Pelosi, who chose first to protect the Facebook Cartel, are conflicted out of having any say or vote in the coming congressional investigation into Leader v. Facebook corruption.

Chief Justice John Roberts, Jr.; undisclosed former employer to Preetinder ("Preet") Bharara, U.S. Attorney currently persecuting Paul Ceglia in U.S. v. Ceglia (Ceglia v. Zuckerberg))

6. Orrick Herrington LLP (longtime Facebook law firm and destroyer of evidence for the cabal in Winklevoss v. Zuckerberg and ConnectU v. Facebook)
 7. Weil Gotshal LLP (Federal Circuit counsel in Leader v. Facebook; Judge Kimberly A. Moore's undisclosed former client)
 8. Latham & Watkins LLP (Facebook Director James W. Breyer's counsel; Judge Kimberly A. Moore's husband, Matthew J. Moore's new law firm)
 9. Federal Circuit Bar Association ("FCBA") (Federal Circuit's bar association; second largest in the U.S.; Facebook's law firms exert much influence in its policy and activity, incl. Fenwick & West LLP, Gibson Dunn LLP, Orrick Herrington LLP, Weil Gotshal LLP; Facebook's large shareholder, Microsoft, is a director; Federal Circuit Clerk of Court Jan Horbaly is an officer; FCBA made an appearance in Leader v. Facebook to oppose the amicus curiae (friend of the court) motion of Dr. Lakshmi Arunachalam, former Director of Network Architecture at Sun Microsystems, in favor of Leader Technologies and objecting to the evident conflicts of interest within the court itself, her motion was denied, the judges refused to disclose their conflicts which we now know include Facebook and Microsoft stocks)
 10. DC Bar Association
 11. Perkins Coie LLP (Facebook's "rapid response enforcement team;" law firm for Obama's chief counsels, the husband and wife team of Robert F. Bauer and Anita B. Dunn; Bauer was identified on Aug. 1, 2013 as having directed the IRS targeting of the Tea Party)
 12. Stroz Friedberg (Facebook's "forensic expert" who manipulated the data in Paul Ceglia v. Mark Zuckerberg, and who first revealed the existence of 28 Zuckerberg hard drives and Harvard emails that they told Leader Technologies in 2009 were "lost")
- B. Facebook attorneys & cooperating judges:**
13. Gordon K. Davidson (Fenwick; Facebook's securities and patent attorney; Leader Technologies' former attorney)
 14. Christopher P. King (sometimes Christopher-Charles King, Fenwick)
 15. Theodore B. Olson (Gibson Dunn)

FIG. 2—A REQUEST FOR CONGRESSIONAL INTERVENTION. On Feb. 21, 2014 (latest revision: Mar. 1, 2014). A group of concerned citizens published a request being sent to numerous members of Congress. The request seeks constitutional redress for widespread corruption within the Executive and Judicial Branches surrounding the *Leader v. Facebook* patent battle. Facebook argues they won, but would not say "fair and square." Leader counters that any verdict or Patent Office decision based on fraud cannot stand.

The fact is, the ruling against Leader did not have a shred of justification. No expert testimony, no witnesses, no evidence, just Facebook attorney charades that confused the jury. The appeals system is supposed to fix jury confusion, not embrace it like happened here. It now appears the verdict was pre-ordained as Judge Leonard P. Stark's quid pro quo for his judgeship appointment by President Obama—just a week after the trial. It was also insurance to protect the substantial financial holdings of the judges and Obama White House officials (thanks to the various stock market manipulations by JPMorgan Chase, Goldman Sachs and Morgan Stanley) in funds that invested heavily in Facebook pre-IPO stock.  91. Tesla Motors (received \$465 million in Obama stimulus funds and hired Cooley's Michael Rhodes in the seven months before the Leader v. Facebook trial, just before veteran Judge Joseph Farnan made the surprise announcement of his retirement, just six days after Facebook's disastrous Markman Hearing)
 92. Solyndra (received \$535 million in Obama stimulus at the recommendation of the Cooley-McBee Strategic "consulting" alliance)
 93. BrightSource (received \$1.6 billion in Obama stimulus at the recommendation of the Cooley-McBee Strategic "consulting" alliance)
 94. John P. Breyer (father of James W. Breyer; founder of IDG Capital Partners - China; coached his son

- on exploiting Western markets while he quietly built a venture capital business in China for the last 20 years; the real brain behind the Breyer exploitations
95. IDG Capital Partners (China) (founded by John P. Breyer, the father of James W. Breyer, Accel Partners; the current launderer of the tens of billions James W has fleeced from the U.S. market from the bailout, stimulus and the "pump & dump" Facebook IPO schemes)
 96. Goldman Sachs (received US bailout funds; then invested with DST in Facebook private stock via Moscow; took Facebook public; locked out American investors from investing)
 97. Morgan Stanley (received US bailout funds; took Facebook public; probably participated in overseas purchases of Facebook private stock before IPO)
 98. State Street Corporation (received U.S. taxpayer bailout monies along with Goldman Sachs and Morgan Stanley; consolidating control of ATM banking networks internationally)

- Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
108. Bryan J. Rose (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
 109. Dr. Saul Greenberg (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greeberg lied to the jury, thus discrediting his testimony)
 110. Toni Townes-Whitley (CGI Federal; Michelle Obama's 1985 Princeton classmate; CGI "donated" \$47 million to the Obama campaign; CGI won the no-bid contract to build the www.healthcare.gov Obamacare website; CGI shut off the security features on Obama's reelection donation sites to increase donations)
 111. CGI Federal (US division of a Canadian company; Donated \$47 million to Obama's reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama's Princeton classmate, Toni Townes-Whitley, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)
 112. Kathleen Sebelius (Obama's Secretary of Health & Human Services since 2009 responsible for \$678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and \$47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)
 113. Todd Y. Park (White House Chief Technology Officer (CTO); former CTO for Health & Human Services; chief architect of HealthCare.gov; founder, director, CEO, Athenahealth, Inc.; founder, director, CEO, Castlight Health, Inc.)
 114. Frank M. Sands, Sr. / Frank M. Sands, Jr. (Founder and CEO, respectively, of Sands Capital Management LLC; failed to file S.E.C. Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)
 115. Robin "Handsome Reward" Yangong Li (CEO, Baidu, Inc.

(ADR); appointed Jan. 2004, the same month that Mark Zuckerberg obtained Leader Technologies' social networking source code to start Facebook; Robin Y. Li is very likely associated with John P. and James W. Breyer through their Chinese entities, including IDG Capital Partners, IDG-Accel and other variants; Li appointed a junior attorney from Fenwick & West LLP, Palo Alto/Mountain View, namely Parker Zhang, to be his "Head of Patents;" Fenwick & West LLP represented both Leader Technologies, Inc. and Accel Partners LLC in 2002-2003 and had Leader's source code in their files.)

116. Parker Zhang ("Head of Patents" at Baidu, Inc. (ADR), appointed in approx. May 2012; formerly a junior Associate attorney at Fenwick & West LLP; graduate from Michigan Law in 2005)
117. Penny S. Pritzker (Secretary, Department of Commerce; replaced Rebecca M. Blank; holds over \$24 million in Facebook "dark pools" stock, most notably in Goldman Sachs, Morgan Stanley and JPMorgan)
118. Rebecca M. Blank (Secretary, Department of Commerce; oversaw the dubious Leader v. Facebook activities of the Patent Office Director, David J. Kappos, who held over one million dollars in Facebook "dark pools" during the Leader v. Facebook proceedings; Kappos purchased this stock within weeks of his surprise recess appointment by President Obama; Kappos also was formerly employed by IBM, who sold Facebook 750 patents during the Leader v. Facebook proceedings; right before leaving the Patent Office, Kappos also ordered an unprecedented 3rd reexamination of Leader's patent without even identifying claims)
119. Mary L. Schapiro (Chairman, Securities & Exchange Commission; holds 51 Facebook "dark pools" stocks which held stock in Facebook, Baidu and more than a dozen Facebook crony companies; failed to regulate the "dark pools;" failed to disclose her substantial conflict of interest in regulating the run up to the Facebook IPO)
120. Robert C. Hancock (Chief Compliance Officer, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from

Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. Park's ethics pledges and reports are missing from the Office of Government Ethics)

121. Jonathan Goodman (Chief Counsel, Sands Capital Management, LLC; failed to file S.E.C.
