### FIG. 1—MORE PAY-TO-PLAY NEW WORLD ORDER QUESTIONS FOR HILLARY CLINTON

On Sep. 6, 2005, Bill Clinton met with Kazakh strongman Nursultan A. Nazarbayev. Two days later, Bill's friend, Frank Giustra, received coveted Kazakh uranium mining rights—even though Giustra had no uranium mining track record. The industry was stunned. Within months, The Clinton Foundation received \$152 million in "donations" from Frank Giustra. Two years later, Giustra sold those rights for \$3.1 billion. Hillary and Bill did not disclose their Foundation winnings until forced to recently by Canadian authorities. Goldman Sachs assisted Giustra, and everyone else swirling around the Clinton's New World Order community organizing.

We the People

(JAN. 29, 2016) ~~On Sep. 06, 2005~~, Bill Clinton jetted to Kazakhstan with Canadian Frank Giustra in a hastily arranged meeting with President Nursultan A. Nazarbayev. Giustra had just incorporated a shell (new, not operating) company named UrAsia Energy Ltd. with the help of Goldman Sachs.

In the previous nine months, Clinton had been paid \$925,000 in fees for six speeches to Goldman Sachs and Deutsche Bank. [The issue is not the amount of the fees, however dubious, but rather the audience. We believe that Bill and Hillary's speaking engagements have merely been the smokescreen for their New World Order global community organizing.]

FIG. 2—Anne-Marie Slaughter

Anne-Marie Slaughter, author of *A New World Order*, was one of Hillary's first hires as Secretary of State on Jan. 23, 2009, just three days after Obama's inauguration.]

While Bill was busy with Goldman Sachs and the uranium deal, Accel

Partners invested \$13 million in Facebook on May 26, 2005. A week later, Yuri Milner started Digital Sky in Moscow with Goldman Sachs as an investor. Accel Partners and Milner are Facebook's second and third largest shareholders today. Goldman Sachs is one of Facebook's underwriters who sponsored Facebook's initial public offering (IPO).

On Sep. 07, 2005, a day later, Kazakhstan agreed to give UrAsia coveted uranium mining rights, even though Giustra had no uranium mining experience, and UrAsia was only a shell company. The mining industry was stunned.

## CLINTON PLAYED, GIUSTRA PAID

In the months that followed, the Clinton Foundation received \$152 million in donations from Giustra. Both Giustra and Clinton claim the donations were not pay to play. To paraphrase William Huntgate, a member of the Watergate Committee: "If an elephant walked into the room, some of you would insist that it was a mouse with a glandular condition." FIG. 5—ON OCT. 26, 2005, JAMES W. BREYER AND MARK E. ZUCKERBERG likely committed a crime. We believe they fraudulently solicited Stanford University students to help them write applications to run on Facebook. Facebook's software engine is the invention of Columbus, Ohio innovators Leader Technologies and their founder, Michael T. McKibben. Breyer and Zuckerberg were thus engaged in fraudulent inducement to misappropriate property that did not belong to them. The fact that they crossed state lines to commit this crime would amount to racketeering under the RICO Act, among other offenses. In our opinion, [Click here to go directly to 49 minutes and 11 seconds into this one hour video capture at Stanford University.](#) [Click here](#) for the raw video file (\*.mp4).

Since Facebook was proven in federal court to have been using Leader Technologies' social networking invention, Breyer's and Zuckerberg's Oct. 26, 2005 solicitation would be fraudulent inducement, and this Stanford video is hard evidence of The Greatest Financial Crime in the History of the World.

Hillary Clinton's stonewalled emails revealed her promotion of Facebook "E-diplomacy" from the start of her tenure as Secretary of State in early 2009. At that time, the Leader v. Facebook patent infringement trial was only months old. Hillary's policy grossly interfered with Leader Technologies' due process rights.

In the only part of the Leader v. Facebook trial that Hillary's lawyer cronies could not control, the jury, Leader Technologies proved on 11 of 11 counts that Facebook infringes Leader's U.S. Patent No. 7,139,761 for social networking.

## CLINTON FOUNDATION'S \$152 MILLION PRIMED THE FACEBOOK PUMP

Bill Clinton's \$152 million in Foundation donations from Frank Giustra appear to have been the seed money that Accel Partners and Goldman Sachs needed to get the Leader Technologies' social networking invention ready for Barack Obama's out-of-the-blue presidential announcement on Feb. 10, 2007, sixteen months later

## THE CLINTONS & RACKETEERING

The RICO Act, [18 U.S.C. § 1962](#) (Racketeer Influenced and Corrupt Organizations Act) requires proof of a "pattern of racketeering" activity. A pattern defined as two or more activities where the person directly or indirectly invests in, maintains an interest in, participates in, conducts the affairs of, or acquires income used to acquire an interest in an enterprise, among other things.

The U.S. Supreme Court said about racketeering of the kind described in Bill Clinton's 2005 conduct alone:

"[A] democracy is effective only if the people have faith in those who govern, and that faith is bound to be shattered when high officials and their appointees engage in activities which arouse suspicions of malfeasance and

**TABLE 1—A PATTERN OF CORRUPTION** involving Bill Clinton, Goldman Sachs, Frank Giustra, James W. Breyer, Mark E. Zuckerberg and Facebook. See previous post [AFI \(Aug. 12, 2015\)](#). Hillary & Bill shill for a secret intelligence agency cartel. Americans For Innovation.

The evidence shows that the developments in Facebook were a direct function of Bill Clinton's collaboration with Goldman Sachs.

1. Bill met with Goldman Sachs, then Accel Partners invested in Facebook.
2. Bill spoke in Kazakhstan, then his friend Frank Giustra (Goldman Sachs) received coveted uranium mining contracts for which he was not qualified (but Goldman Sachs wanted)
3. Bill started getting \$152 million from Giustra, then Breyer and Zuckerberg induced Stanford students to write apps, after which Breyer secretly started WIN-IN-CHINA in Hong Kong, outside the knowledge of U.S. regulators (revealed by HSBC whistleblower Hervé Falciani).
4. Facebook was established with Bill's and Goldman Sachs' money, then Barack Obama announced his candidacy on the platform, eventually claiming that his presidency would "fundamentally transform America."
5. Hillary became Secretary of State intent on making Facebook a cornerstone of her E-diplomacy, irrespective of whether or not Facebook was violating patent law.

Bill Clinton evidently used his influence as America's former president to cajole President Nazarbayev to give the uranium mining contracts to UrAsia within a day, even though Frank Giustra had no experience in uranium mining (but Goldman Sachs had friends who did).

**STOP FACEBOOK PROPERTY THEFT**

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

On **Oct. 17, 2012**, Bill Clinton gave a \$200,000 pay-to-play junket speech to JPMorgan—just after JPMorgan made a fortune in Facebook's May 18, 2012 initial public offering. The collusion among America's senior federal judiciary with Wall Street and Silicon Valley is further evidenced in another patent case in addition to Leader v. Facebook. **Dr. Lakshmi Arunachalam**, Internet pioneer and former director of network architecture at Sun Microsystems, yesterday filed a motion at the U.S. Supreme Court in her patent dispute with JPMorgan who is infringing her web transactions patent. JPMorgan is muscling the judges to throw out the case on wholly unsupported grounds. Dr. Arunachalam outlines massive JPMorgan conflicts of interest among the presiding judges—they all have substantial JPMorgan financial holdings. With the exception of Delaware district court judge Sue L. Robinson who recused, the judges have obstinately refused to recuse themselves despite **Judge Richard G. ## GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com, Apr. 10, 2012](#). Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. The Takings Clause of the Fifth Amendment empowers Congress to legislate a payday for Leader Technologies shareholders. This would provide adequate financing for Leader to offer a **rational social** networking environment—one that offers the application utility that people have come to enjoy about Leader's invention **without** sacrificing security and privacy.

Contact your elected representatives and ask them to use Congress' power of the purse to pay Leader Technologies and unplug the Cartel.

Here we go. America.....let the games begin . Iowa, start your engines. Our job over the next few months , beginning in Iowa, is to determine which person in the Presidential race is best equipped to lead us back from the edge of the abyss. The other option , of course, is to be total lemmings and jump over the cliff into history's dust bin. So here's my scorecard, and , believe me, I am a biased old man. My bias is to be unbiased.

Life is all about crossroads and seminal moments. Not all decisions are made with a complete understanding of unintended consequences. In government we have a long history of good intentions that cause more problems than we solve . We have to remember that America is an "idea" not just rocks and dirt. Our idea was memorialized in our Constitution. Our Constitution was based on the principles of fairness, openness, true goodness, achievement, competition, free markets, and God's commandments. The notions of racial bias, gender bias, religious bias, and special privilege were recognized as being intolerable. So why today do we have a black president declare that we are a mean spirited racial nation? What race is Eric Holder , Loretta Lynch, Jeh Johnson, Oprah, Michael Jordan, Tiger Woods , Dr Ben Carson, Condoleezza Rice, James Clyburn, Alex Haley, Clarence Thomas, Thomas Sowell, JC Watts, Susan Rice, Sheila Jackson Lee, just to name a few ? How can they have possibly been this successful in a hopelessly racial nation ? And Hillary claims that women are treated as inferior because of the GOP. Let's see .....the following companies have women in top leadership positions:

GM, Xerox, Oracle, Facebook, Lockheed Martin, Yahoo, Campbell Soup, PepsiCo, IBM, HP, Key Corp, and hundreds of others. It is a fact that the ladies have lost ground in every category under Obama and Hillary's watch. Women have a better chance to blossom in free markets !

And isn't it a coincident that Hillary is a woman who was elected to Congress , held a big position in Obama's terrible cabinet , and is running for America's top job as a woman. Sounds like she wasn't held back.....especially if we take into account her history of incompetence , dishonesty, and criminality . She is running her campaign on female body parts, which incidentally is the same platform that her husband embodied and adored. Sadly, she has a few other platform positions as well. They are all centered on being Obama' third term. I hope that the next four years she is in Federal court trying to lie her way out of Benghazi actions, and exposing America's most precious secrets. America and the world simply deserve better.

So what about Sanders? C'mon, he's a friggin' socialist. If he is what the Democrats want then basically half of our nation wants to totally annihilate America's grand experiment. He's cute and precious but not a lover of our freedom and liberties. If he's elected, TEX will lead a new secession effort until my last breathe. Seriously.....out of here. Don't worry all of you socialist progressives, I will still harass you.

What about the hopelessly inept GOP? What a bunch of non thinking bobbing heads. The entire bunch combined has offered exactly what the Dems have offered. Nada, nothing, nil. At least Trump has shown the courage of conviction. He is disgusting and crass which is refreshing and inspiring. PC could be on the chopping block. Trying to get rich in office would be on hold during his presidency. If an enemy tried to bluff and bluster, Trump would call them a bad name and make them cry. How much fun would that be? At least in our last few years as a free Republic , we could watch a pretty good side show. I hope he goes "bald" in office. Then he could shave his chest like Putin. Imagine hairless world leaders.

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

## CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Email comment by TEX:

Obama is a truly fascinating American president. Yesterday he spoke at a mosque in Baltimore and lectured US citizens for being mean to Muslims. He didn't say anything about the hundreds of deadly attacks by Muslims on Americans and American interests since the late 1970's . He speaks of their important contributions to American society while they obviously fail to integrate into our society when they get the chance. He claims to fight for equality of all women in America while Muslim men treat women as second class citizens. In their societies around the world, women can't drive, they can not hold public office, little girls don't go to school, and women can't show off their new hairdos. Obama is not an ignorant or misinformed man.....he is either totally delusional, or a man with a non Christian, non atheist, non Jewish agenda. Whether he claims to be a Muslim or not, he is totally fascinated in their theocratic way of societal control. The mosque in which he spoke is actually on a terror watchlist.....yet not once did he suggest that the local Imam should stop his radicalizing preaching. Why? Often when Obama speaks, he has all Christian wall artifacts removed or covered. Yesterday he stood in front of a very large Islamic symbol as he spoke.

So we have Obama , on one hand, soft selling Islam in America, and we have Hillary and Bernie, on the other hand, peddling socialism as a solution to our current economic malaise. Folks, we are facing a seminal American election. The way this is setting up, we could have anarchy, riots, and burning cities regardless of the outcome. The reasons for this , deep to the core, divisiveness is the man speaking in the mosque yesterday. He has thrown all of us, black, brown, white, under the bus. He truly believes that if America changes it's "US Constitution way of life" , the Muslim terrorists will go back to their fabulous efforts in science, math, the arts, and so on. The truth is that " modernity" is their enemy. Advancement is their opponent. Death to all infidels is their goal.

So my first question is can Bernie or Hillary combined ( that's a frightening thought) have enough moxie to overcome the stage that has been set? This country has a massive pile of debt, a faltering economy, porous borders, and a broken political system. My second question is , when will these idiot Republicans stop their third grade antics and talk to us about solutions, plans, ideas, and leadership? Are we toast? I truly pray that a leader will emerge.

Have a great day, TEX

## GALLERY OF JUDICIAL MISCONDUCT

**Judge Leonard P. Stark**, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#) Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. **Judge Evan J. Wallach**, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. CENSORSHIP A REAL AND PRESENT DANGER

Hayward, J. (Feb. 05, 2016). Facebook censorship and the war on free speech. Breitbart.

<http://www.breitbart.com/tech/2016/02/05/facebook-censorship-and-the-war-on-free-speech/>

Free speech is under assault – not only in repressive dictatorships suddenly able to influence global conversations through the Internet, but across the Western world, and even in the American bastion of free expression. Absolute protection for speech as an inalienable right has given way to bitter squabbling over how much free expression should be sacrificed for various, ostensibly noble goals, and who the censors will be.

...

We are all totalitarians now. Anyone bothered by that reality had better speak up, loudly enough to be heard by billionaire CEOs, while they still can.

Ok, America, let's talk money.

Our country just hit a real milestone.....\$19 trillion in debt. No country has ever achieved this impressive milestone before. Do any of our presidential candidates address this monster in their game plan for America? I guess the number is either non fixable or not important. A trillion is a BIG number. Let me give you a simple comparable to explain how big this \$19 trillion debt number really is.

Let's say that 2,000 years ago , Jesus sat down on a rock and committed to put \$26,000,000 per day in a cookie jar. He never missed a day without putting in \$26,000,000 . The total of dollars that would be in his clay jar today would be close to \$19,000,000,000,000. Now if he continued to deposit in his jar until we had enough to pay off our current committed, but UNFUNDED, US obligations (\$140 trillion) , he would be there until the year 15,000 AD putting in \$ 26,000,000 per day.

So Bernie and Hillary are trying to get elected by adding to our current debt obligations by giving away free everything. Each day they strive to give away more than the other. When Barack Hussein Obama came into office in 2008, our debt was around \$10 trillion. Today it's \$19 trillion. Can we take anymore of this ? Imagine this.....our "TOTAL" US economy is around \$17.6 trillion. That's every transaction every day for a year. Seriously, would somebody in the press please ask the Democrats if they know how we can possibly outrun their incompetence ? With only one third of of our capable citizens paying taxes, how can we ever pay this back? When will our government find that the productive folks will not produce any more? When does the rest of the world begin to push back on the fiat dollar? Remember, the only underlying asset of the dollar is "the faith and credit of the US government". It's not looking so good.

Have a great day, TEX

Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. #### HOMELAND SECURITY WHISTLEBLOWER STEPS FORWARD

Fitzgerald, S. (Feb. 06, 2016). DHS Official: I Was Ordered to Purge Records of Islamic Terror Ties.

<http://www.newsmax.com/Newsfront/dhs-isis-destroy-records/2016/02/06/id/713047/>

A veteran official with the Department of Homeland Security claims he and other staff were ordered to destroy records on a federal database that showed links between possible jihadists and Islamic terrorist groups.

"After leaving my 15-year career at DHS, I can no longer be silent about the dangerous state of America's counter-terror strategy, our leaders' willingness to compromise the security of citizens for the ideological rigidity of political correctness—and, consequently, our vulnerability to devastating, mass-casualty attack," the former employee, Patrick Haney, wrote in an explosive column that was published late Friday on The Hill website.

<http://thehill.com/blogs/congress-blog/homeland-security/268282-dhs-ordered-me-to-scrub-records-of-muslims-with-terror>

Amid the chaos of the 2009 holiday travel season, jihadists planned to slaughter 290 innocent travelers on a Christmas Day flight from the Netherlands to Detroit, Michigan. Twenty-three-year old Nigerian Muslim Umar Farouk Abdulmutallab intended to detonate Northwest Airlines Flight 253, but the explosives in his underwear malfunctioned and brave passengers subdued him until he could be arrested. The graphic and traumatic defeat they planned for the United States failed, that time.

Following the attempted attack, President Obama threw the intelligence community under the bus for its failure to "connect the dots." He said, "this was not a failure to collect intelligence, it was a failure to integrate and understand the intelligence that we already had."

Most Americans were unaware of the enormous damage to morale at the Department of Homeland Security, where I worked, his condemnation caused. His words infuriated many of us because we knew his administration had been engaged in a bureaucratic effort to destroy the raw material—the actual intelligence we had collected for years, and erase those dots. The dots constitute the intelligence needed to keep Americans safe, and the Obama administration was ordering they be wiped away.

WHAT ALL AMERICANS NEED TO KNOW ABOUT HILLARY CLINTON'S ALLEGED SAP COMPROMISE--MAJ ED COET, USA (RET)  
[COURTESY: CAPT Les Horn, USN (Ret)]

My name is Ed Coet. I am a retired US Army Intelligence Officer. In my last job in the army I was the Chief of the Human Intelligence Branch for the US European Command in Stuttgart, Germany. In that capacity I was also the Designated Program Manager for a Special Access Program (SAP) like the SAP that Hillary Clinton is alleged to have compromised in the most recent State Department Inspector General report to congress and which has been widely reported in the news. Here is what I personally know about SAP's and what I can attest to in an unclassified forum:

1. The names of each SAP are themselves classified Top Secret because the information within the SAP are far and above Top Secret.

2. SAP's are so sensitive that even people who have security clearances giving them access to Top Secret Sensitive Compartment Information (TS SCI), an enormously high security clearance level, cannot have access to a SAP's unless they receive a special indoctrination into the SAP based on an operational "must know" that exceeds all other "need to know" standards.

3. Being "read on" for a SAP is far more than acknowledging in writing that you have been briefed on the SAP. It is an in-depth "indoctrination" into the given SAP, and each SAP is itself compartmented separately from other SAPs. Having access to one SAP does not give you access to another SAP, and in fact rarely does. Only a tiny handful of people have knowledge of all SAP's. SAP's are the most stringently compartmented and protected information in the entire US government.

4. Unlike Top Secret SCI which is maintained in highly secure Sensitive Compartmented Information Facilitates (SCIF's) managed by specially trained Special Security Officers (SSO's) at various levels of command, every single SAP is managed by an individually designated Program Manager for each individual SAP covering an entire theater of operations. In other words, SAP Program Managers are far fewer in number than there is SSO's. SSO's are not cleared to even know about SAP's or to maintain information about them in their already enormously secure SCIF's. How SAP's are secured cannot be discussed because of the sensitive beyond Top Secret nature in which it is done.

5. Unlike individuals with the highest Top Secret SCI access security clearances, who must undergo a special background information with periodic "bring-up" background investigation, those tiny few who have access to SAP's must also endure periodic polygraph tests in addition to the most comprehensive of special background investigations. I used to have to

12. Stroz Friedberg (Facebook's "forensic expert" who manipulated the data in Paul Ceglia v. Mark Zuckerberg, and who first revealed the existence of 28 Zuckerberg hard drives and Harvard emails that they told Leader Technologies in 2009 were "lost")
13. Chandler Law Firm Chartered (Professor James P. Chandler, III, principal; Leader Technologies patent counsel; adviser to IBM and David J. Kappos; adviser to Eric H. Holder, Jr. and the U.S. Department of Justice; author of the Economic Espionage Act of 1996 and the Federal Trade Secrets Act)

19. James Cole (Deputy Attorney General, U.S. Dept. of Justice)
20. Tony West (Associate Attorney General, U.S. Dept. of Justice; 2008 Obama California Campaign Manager)
21. Robert F. Bauer (Obama Attorney; White House Chief Counsel; directed IRS targeting of the Tea Party; formerly and currently employed by Perkins Coie LLP, Facebook's "rapid response enforcement team;" spouse is Anita B. Dunn)
22. Anita B. Dunn (Obama Attorney; White House Chief Counsel; husband Robert F. Bauer directed IRS targeting of the Tea Party, formerly employed by Perkins Coie LLP, Facebook's "rapid response enforcement team")

24. James "Jamie" Brigagliano (former Deputy Director of the Division of Trading and Markets at the Securities and Exchange Commission; Mary L. Schapiro's chief lieutenant on "dark pool" rule making)
25. Joseph P. Cutler (Perkins Coie)

schedule four-star generals and admirals to be polygraphed in order for them to maintain their access to my SAP. Many generals and admirals who obviously have the highest security clearances still did not rate being indoctrinated into my SAP. In fact, they didn't even know the SAP existed.

\*\*\*END, Jill comment, Part II\*\*\*

**K. Craine** February 8, 2016 at 12:47 PM

\*\*\*BEGIN, Jill comment, Part III\*\*\*

6. Compromise of a SAP is the single most dangerous security violation that can ever happen to the USA. Even the enormously damaging revelations of the Edward Snowden's TOP Secret SCI security compromise does not reach the level of a SAP compromise.

7. To put SAP information in to an unsecure sever like Hillary Clinton's unsecure server is a class one felony that could, in some cases, result in life in prison. That is because such a compromise is so dangerous that it could and likely will result in the death of people protected by and within the scope of the SAP.

As a former SAP Program Manager I believe it is inconceivable that if it is verified that Hillary Clinton's server actually had SAP information on it that she could possibly escape indictment and criminal prosecution. As hard as it is to imagine, that would even be worse then electing to not prosecute a mass murdering serial killer because even they could not inflict as much damage on our country as the compromise of a SAP. Compromise of a SAP not only could -- but without doubt would -- cause serious damage to our national security.

If it is true that Hillary Clinton had SAP information on her unsecure server, whether it was marked or not, you can be sure that the FBI will strongly recommend that charges be brought against Hillary Clinton and continue in an exhaustive investigation to trace back to every single person that had even the tiniest role in this unbelievable security compromise.

If the Attorney General, through "prosecutorial discretion," elected not to prosecute this crime, I believe congress would have no alternative but to impeach her, and the FBI would then have no choice but to conduct a criminal investigation of her for a deliberate cover up -- so grave is this security violation.

If President Obama were to pardon Hillary Clinton for a compromise of this magnitude he would render himself in the historical record as an "enemy of the state," and could himself face criminal prosecution -- so grave is such a security compromise. Nobody, not even the POTUS could gets away with something like this in our system of government. If anyone could escape persecution for compromising a SAP, we are deep trouble as a nation. No president who loves this country and is ttrue to his oath would ever allow anyone, not even his or her closest and most loved relative, to get away with a SAP compromise. It is simply unimaginable that this could ever happen.

If the ongoing investigation finds that Hillary Clinton compromised a SAP, then we all should know with certainty, regardless of political persuasion, that she is entirely unfit to hold public office of any kind let alone President of the USA -- and ALL Americans should never tolerate it. Compromising a SAP is an absolute "disqualifier" for public office and access to our nations most sensitive information - period.

ED COET

Major, US Army (Retired)

P.S. It is my sincere hope that each of you will share this article, to help other Americans understand how grave Hillary Clinton's alleged SAP compromise is. We can't allow anyone so careless with this level of information to have access to any classified information ever again for as long as she lives. This would surely render her unqualified and unfit to hold any public office let alone POTUS if this allegation proves to be true.
