PAY-to-PLAY NEW WORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

BREAKING NEWS! NOV. 06, 2017: FACEBOOK IS KREMLIN FUNDED!

The Paradise Papers confirm AFI's research that the \$200 million Russian investment in Facebook that pumped their pre-initial public offering valuation to \$100 billion came from Vladimir Putin through his intermediary Yuri Milner and DST USA. Currently hidden from the current coverage is the fact that **Yuri Milner is a disciple of Larry Summers from 1993** when Milner worked for Summers at the World Bank alongside Sheryl K. Sandberg, the present chief operating officer of Facebook. Click here for [The Guardian](#) coverage. Click here for an [AFI Timeline update](#).

UPDATE NOV. 12, 2017! NEW FUSION GPS ("RUSSIAN DOSSIER") JUDGE RICHARD LEON IS JOHN PODESTA'S CLOSE BUDDY IN ALL THINGS SPY RELATED

The new Fusion GPS federal judge Richard J. Leon, is a longtime colleague and Georgetown Law School lecturer with John Podesta according to his [Jan. 24, 2002](#) Senate Confirmation Hearing Disclosure. Therefore, [Canon 2](#) of the Code of Conduct for U.S. Judges dictates his recusal. He is also close to [Porter Goss](#) who approved the NSA [Project Trailblazer](#) illegal mass surveillance on Americans. This gives new meaning to "the fox guarding the hen house." Leon wrote in his disclosure on page 182, Sec. 3: "I have committed to co-teach with [John Podesta](#) the "Congressional Investigations" court at Georgetown Law School in the Fall Semester 2001. This will be the fifth consecutive year we have taught the court together" (back to 1997). Here's the actual Leon Senate disclosure:

3. Do you have any plans, commitments, or agreements to pursue outside employment, with or without compensation, during your service with the court? If so, explain.

I have committed to co-teach with John Podesta the "Congressional Investigations" course at Georgetown Law School in the Fall Semester 2001. This will be the fifth consecutive year we have taught this course together. I have also committed to teach the same course, alone, at the Catholic University Law School in the Spring Semester 2002. If confirmed, I would reevaluate the burden of teaching the course one night a week, against my new duties as a judge.

ORIGINAL POST

(OCT. 27, 2017)—On May 26, 2009, Russian oligarch Yuri Milner invested \$200 million in Facebook private stock brokered by his Russian partner Goldman Sachs through his Mail.ru/Digital Sky Technologies/DST company. Milner had worked for Obama's 2008 bailout director Larry H. Summers when he was chief economist for the [World Bank](#) in the early 1990's as a researcher along with Sheryl K. Sandberg. Harvard economists including Summers, Sandberg and Milner helped create and exploit the current corrupt Russian oligarch economy for the Deep State.

Sandberg later became Summer's chief of staff at the U.S. Treasury under President Bill Clinton. Summers and Sandberg helped the C.I.A. establish their "private" and highly illegal venture capital company In-Q-Tel. Then, when Summers became Harvard president and Mark Zuckerberg's handler, Sandberg moved to Google and started Gmail. She then became Facebook's chief operating officer in Mar. 14, 2008. While Sandberg was starting Gmail, Milner was busy in Moscow, Russia starting Mail.ru and Digital Sky Technologies (DST). The intent to takeover global communications is evident in hindsight.

On Jun. 16, 2009, Hillary Clinton approved the Vladimir Putin-controlled ROSATOM to purchase 20% of America's uranium reserves through Uranium One. The Clinton Foundation had already received more than \$145 million in pay-to-play donations from Uranium One beneficiaries.

Hillary's treason in her compromise of America's energy reserves using Russian surrogates is evident. Cash Flowed to Clinton Foundation Amid Russian Uranium Deal. The New York Times.

What is becoming equally evident is Hillary's simultaneous compromise of America's elections, digital networks and court proceedings through secret "election winning template" contracts with Facebook using Russian surrogates.

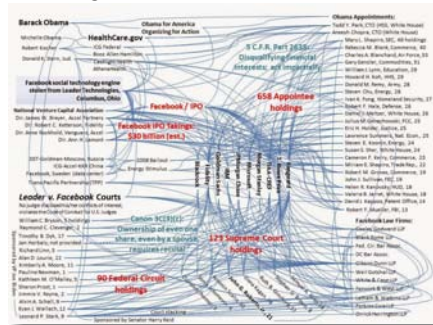

[On Sep. 26, 2009](#), Hillary Clinton and the State Department entered into a secret contract with Facebook for \$120,000 (GSA SAQMMMA09M1870) to build "a template for winning elections using advanced Facebook marketing." The next month, on [Oct. 16, 2009](#), Hillary promoted Facebook on a video presentation to a U.S. State Department-funded Alliance for Youth Movements Summit in Mexico City. This contract was not known because Hillary had hidden it on her private email server in the basement of her house. It first came to light through the dogged work of Judicial Watch who obtained it in Apr. 03, 2014. See also [TIMELINE](#).

Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. insecure Facebook and Gmail email use; this first numbered document in the four-part series is nonsensically the last dated item).

This is yet another example of the obstruction of justice by Hillary and the U.S. State Department in *Leader v. Facebook* and *Ceglia v. Zuckerberg*.

This collusion with Facebook was wantonly criminal on many levels.

Columbus innovator Leader Technologies, Inc. was suing Facebook for patent infringement on Nov. 19, 2008 in Delaware federal district court. Reagan-appointed judge Joseph J. Farnan, Jr. was assigned the case.

While the case was preparing for trial, and despite four motions to compel, Mark Zuckerberg stonewalled providing his 2003-2004 Harvard computer devices and emails for review in the case. We now know that his attorneys at Gibson Dunn LLP had custody of 28 Harvard computer hard drives and emails. After stonewalling for a year, they lied to the court and said they had lost the information.

We believe Facebook and Zuckerberg hid this information because it will prove that Zuckerberg is a mere stooge of the rogue C.I.A. and was given the programming code from the IBM Eclipse Foundation to start Facebook. It will prove that IBM was given the code from James P. Chandler, III who stole it from his legal client Leader Technologies, Inc.

What Leader had no way of knowing was that Chandler was working intimately at the highest level with the Secretary for the Department of Defense's Highlands Forum to weaponize the Internet. He held illegal private meetings with favored private companies to set policy on how the Internet would be controlled and profited from by the military-industrial complex.

This cabal of military-industrial complex criminals have used Leader's invention for 17 years for free. Leader's shareholders across the country are starting to file [Miller Act Notice](#) to demand that President Donald Trump pay them for using their property without compensation.

While Zuckerberg was openly lying to the court, Hillary Clinton and the State Department entered into secret contracts with Facebook to build "a template for winning elections using advanced Facebook marketing." These contracts were managed by "[Dmitry Shevelenko](#)" whose Russian background has been obscured by the shadow government.

OBSTRUCTION OF JUSTICE

In American courts, litigants have a solemn right to a fair trial. Litigants have the right to assume that no government representative will use their position of public trust to interfere in the case in favor of either side. When a government representative interferes in a case, that crime is called "obstruction of justice" for obvious reasons. Those interfering are attempting to influence the outcome of the case in favor of one of the parties.

ELECTION TAMPERING

In American elections, citizens have a solemn right to a free and fair election. Citizens have the right to assume that no government representative will use their position of public trust to interfere in an election in favor of either candidate. When a government representative interferes in an election, that crime is called “election tampering” and is a violation of The Hatch Act.

FRAUD & RACKETEERING

In American public contracts, citizens have a solemn right to transparency regarding the spending of public funds. Except in special circumstances, government representatives may not use their position of public trust to favor certain private parties in uncompetitive contracts. When a government representative enters into no-bid contracts and colludes with the General Service Agency (GSA) to hide the existence of those contracts, that crime is called “fraud.” When such fraud involves parties across state lines, that crime is “racketeering.”

PAY LEADER FOR 17 YEARS OF FREE USE OF THEIR SOCIAL NETWORKING INVENTION; FEDERAL GOVERNMENT CAN RAISE \$200–500+ BILLION IN SURCHARGE REVENUES FROM SOCIAL NETWORKING WITHOUT RAISING TAXES!

In conclusion, the crimes described above alone are enough by themselves to convict an average American of racketeering and treason. The evidence of these crimes come from Hillary Clinton’s private email server.

The Russian collusion nexus between Uranium One and Facebook election rigging is stunning.

Readers are encouraged to get this article to your elected representatives. Ask them to: (1) pay Leader Technologies’ Miller Act Notice (see below) for the last 17 years of free use of their social networking invention that Hillary obstructed, and (2) prosecute Hillary and her racketeers for her Uranium One and digital election rigging racketeering and treason.

In their cover letter to President Trump, Leader shareholders propose a powerful solution to the 17 years of property theft by the federal government.

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\)](#), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that [Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#). Judge Lourie also failed to apply

his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore , U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

WEAPONIZATION OF SOCIAL MEDIA: TAKEOVER OF GLOBAL DIGITAL INFRASTRUCTURE

Judge Evan J. Wallach , U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Lionel Nation. (Oct. 30, 2017). WHY PAUL MANAFORT'S INDICTMENT HAS ABSOLUTELY NOTHING TO DO WITH TRUMP. Lionel Nation.

Former Trump campaign chairman Paul Manafort and his associate Rick Gates have been indicted by a federal grand jury Monday on 12 counts, according to the special counsel's office.

The special counsel's office told Fox News that the counts include conspiracy against the United States, conspiracy to launder money, unregistered agent of a foreign principal, false and misleading FARA statements, false statements and seven counts of failure to file reports of foreign banks and financial accounts.

The case was unsealed Monday, after Manafort and Gates were permitted to surrender themselves to the custody of the FBI, the special counsel's office told Fox News.

Manafort and Gates face the first charges in the special counsel's investigation. This is also the first time the special counsel's office has confirmed that a grand jury has been impaneled.

First reported by The New York Times, Manafort and Gates are expected in federal court on Monday. Gates is a longtime associate of Manafort. According to The Times, his name appeared on documents linked to companies that Manafort's firm created in Cyprus to receive payments from politicians and businesspeople in Eastern Europe.

White House lawyer Ty Cobb told Fox News he had no comment on the report at this time.

It was widely speculated that Manafort would receive the first charges in Special Counsel Robert Mueller's investigation.

Manafort has been investigated for his dealings in Ukraine several years ago, for which he did not register as a foreign agent until June 2017.

Or perhaps worse. Make that haunting three paragraphs.

This is not pretty.

The list, which includes 226 MEPs including former President of the European Parliament Martin Schulz, seven vice-presidents, and a number of committee heads, coordinators, and quaestors, was circulated within the billionaire open borders campaigner's Open Society Foundations group, and revealed by DCLeaks.

Staff. (Oct. 30, 2017). BUSTED: FACEBOOK, TWITTER & GOOGLE MADE WAY MORE CASH ON RUSSIAN ADS THAN WHAT THEY FIRST TOLD CONGRESS. The True Pundit.

Facebook, Google and Twitter plan to tell congressional investigators this week that the scope of Russia's campaign to spread disinformation on their sites – and to potentially disrupt the 2016 U.S. presidential race – is much broader than the companies initially reported.

At Facebook, roughly 126 million users in the United States may have seen posts, stories or other content created by Russian government-backed trolls around Election Day, according to a source familiar with the company's forthcoming testimony to Congress. Previously, Facebook had only shared information on ads purchased by Kremlin-tied accounts, revealing that they reached more than 10 million U.S. users.

Google, which previously had not commented on its internal investigation, will break its silence: In an early blog post, the search giant confirmed that it discovered about \$4,700 worth of search-and-display ads with dubious Russian ties. It also reported 18 YouTube chan

Tyler Durden. (Oct. 30, 2017). HONEYPOT: WAS THE TRUMP CAMP'S MEETING WITH RUSSINA LAWYER ALL A CLINTON SET-UP? ZeroHedge.

This week's bombshell - that the DNC and the Hillary Clinton campaign financed former British spy Christopher Steele's salacious dossier allegedly connecting Donald Trump and Russia - may suggest something even more devious. The dossier was compiled by the notorious firm Fusion GPS, which also worked for Russian lawyer Natalia Veselnitskaya, the very woman who met with Donald Trump Jr. in a meeting deemed pivotal to the case for Trump-Russia "collusion."

The Fusion GPS connection raises a supremely interesting question: Did the Clinton campaign actually orchestrate the meeting between Trump campaign officials and Veselnitskaya? Is the entire Trump-Russia collusion narrative the result of a Clinton set-up?

Now, it seems as though one of the embattled Podesta brothers, Hillary's former campaign chair John Podesta, is more than ready to engage in a twitter war with the President after firing back that he's the "victim of a big lie campaign by the American President."

Lauren Richardson. (Oct. 29, 2017). JASON CHAFFETZ DROPS BOMBHELL ON AG SESSIONS: 'HE IS PART OF THE DEEP STATE' AND MUST GO! (VIDEO). Truth Uncensored.

When will Sessions prosecute the Clinton's and Deep State criminals...

Jason Chaffetz, former House of Representatives member and Chairman of the House Committee on Oversight and Government Reform was on Justice with Judge Janine Pirro Saturday night and dropped another BOMBHELL about Attorney General Jeff Sessions.

Judge Janine asked Chavez some pointed questions about Sessions.

Judge Janine: ...What can you do?

Chaffetz: Yeah, the State Department has been holding tens of thousands of documents on a case that they claim is closed. And when I met with Attorney General Sessions much like Ron DeSantis did, I basically got a stiff arm. I got an Attorney General that said he would not comply, he wasn't going to do any sort of prosecutions and it's such a huge difference. When he was a Senator he would have never put up with that.

The Gateway Pundit reports:

Judge Janine went on to ask if Sessions was afraid of them (i.e. deep state)? She also asked if they all (Congress and Washington politicians) had so many skeletons? The Judge then correctly stated that this is driving Americans crazy and the American people have had it!

When asked whether Jeff Sessions should be out, Chaffetz correctly responded, "Well, I don't know what the case is to keep him!"

SEN. ELIZABETH WARREN RATS OUT HILLARY CLINTON

Staff. (Nov. 03, 2017). ELIZABETH WARREN AGREES DEMOCRATIC RACE 'RIGGED' FOR CLINTON. BBC.

Elizabeth Warren was a strong supporter of Clinton during her campaign

US President Donald Trump has called for an investigation after a Hillary Clinton supporter said the Democratic party "rigged" its primary for her.

CNN asked Senator Elizabeth Warren if Mrs Clinton's contest against Democratic rival Bernie Sanders was rigged, and she said: "Yes."

Another Democratic official writes in a new book about the party's "unethical" agreement with the Clinton campaign.

President Trump said the American public "deserves" an inquiry.

Ms Warren, a progressive senator from Massachusetts who campaigned for Mrs Clinton, was reacting to allegations by former Democratic National Committee (DNC) chairwoman Donna Brazile.

Donna Brazile, the former chairwoman of the Democratic National Committee, said on Thursday that Hillary Clinton rigged the Democratic primary so that she would prevail against Bernie Sanders.

In a piece published on Thursday in Politico Magazine, Brazile described how she had discovered an agreement made in August 2015 that Clinton would have "control (of) the party's finances, strategy, and all the money raised" in exchange for dealing with the Democratic Party's massive debt from the 2012 campaign for Barack Obama.

It's a move that usually comes after the primaries: the party's nominee takes over the party. But instead, Clinton was running the financial arm of the Democratic party, and while Brazile admitted it was legal, it "looked unethical."

"If the fight had been fair, one campaign would not have control of the party before the voters had decided which one they wanted to lead," Brazile wrote. "This was not a criminal act, but as I saw it, it compromised the party's integrity."

Sophie Tatum. (Nov. 03, 2017). ASKED IF DNC SYSTEM WAS RIGGED IN CLINTON'S FAVOR, WARREN SAYS 'YES'. CNN.

Washington (CNN)Sen. Elizabeth Warren said she believes that the Democratic National Committee was "rigged" in favor of former Democratic presidential nominee Hillary Clinton during the 2016 primary.

Asked Thursday by CNN's Jake Tapper whether she believes that the Democratic campaign organization was tipped in favor of Clinton over her primary opponent, independent Vermont Sen. Bernie Sanders, Warren responded without hesitation: "Yes."

"We learned today from the former Democratic National Committee Chairwoman Donna Brazile that the Clinton campaign, in her view, did rig the presidential nominating process by entering into an agreement to control day-to-day operations at the DNC," Tapper said, continuing on to describe specific arms of the DNC the Clinton camp had a say over, including strategy and staffing, noting that the agreement was "entered into in August of 2015," months before Clinton won the nomination.

Warren called that "a real problem."

Not only did Brazile throw Hillary under the bus, she exposed Debbie Wasserman Schultz's horrible management skills and secretive behavior which crippled the lines of communications with DNC officers.

Wasserman Schultz was so secretive that she didn't even tell any of her fellow DNC officers that the servers had been breached until MINUTES before WaPo broke the news of the hack.

Please go to the 23:55 point for the information on the uranium sale:

HANNITY: "Barack Obama purposely manipulated the process to allow this trucking company to be the conduit by which they got the uranium out of the country. Tell us what you found."

Tyler Durden. (Nov. 03, 2017). EX-SOROS TRADER SUED FOR VICIOUSLY ABUSING WOMEN IN "MANHATTAN SEX DUNGEON". ZeroHedge.

Out of all the stories of harassment, abuse and victimization of women that have emerged since the Harvey Weinstein scandal broke last month, this one is possibly the most bizarre, and - if accurate - repugnant.

To wit, the New York Post reported Friday that a former portfolio manager at Soros Fund Management, the firm founded by Billionaire investor George Soros, sadistically abused and victimized women in a Manhattan penthouse sex dungeon - even beating one woman so brutally that one of her breast implants flipped.

Howie Rubin, 62, a former Bear Stearns trader who was featured in the best-selling Michael Lewis novels "Liar's Poker" and "The Big Short," was accused in a \$27 million lawsuit filed in Brooklyn federal court of luring women to his sex dungeon, abusing them, then trying to silence them with settlements and NDAs.

During a House Intelligence Committee hearing into Russian involvement in the 2016 presidential election, Twitter General Counsel Sean Edgett brazenly admitted that Twitter censors Infowars stories in favor of mainstream media.

Edgett was asked by Rep. Mike Quigley (D-IL) why an Infowars story about New York Mayor Mike De Blasio ignoring warnings from an Imam about terrorist radicalization in New York appeared at the top of the #NYCTerroristAttack hashtag during the vehicle attack in Manhattan last week.

"This is a real-time example of when we talk about this information being weaponized, how quickly can you act and what's your responsibility to set the record straight so that the people who saw this know that it's fake news?" asked Quigley, adding that Twitter needed to prevent Infowars "spreading like some sort of virus through the legitimate world."

Megan Twohey, William K. Rashbaum. (Nov. 02, 2017). TRANSACTIONS TIED TO WEINSTEIN AND AIDS CHARITY ARE UNDER INVESTIGATION. New York Times.

Federal prosecutors in Manhattan have opened a criminal inquiry into transactions arranged by the producer Harvey Weinstein involving \$600,000 raised at an AIDS charity auction, according to three people with knowledge of the matter.

The office of the United States attorney for the Southern District of New York is examining whether fraud occurred when the money went to a theater that had staged a musical produced by Mr. Weinstein, said the three people, speaking on the condition of anonymity. The fashion designer Kenneth Cole, chairman of the board at the New York-based AIDS charity, amfAR, said the organization received a subpoena last month.

In September, The New York Times revealed details of the transactions and a civil investigation by the New York State attorney general's office. Two weeks later, The Times reported sexual harassment and misconduct allegations against Mr. Weinstein, who is now the subject of multiple assault investigations in London, Los Angeles and New York City.

Luke Rosiak. (Nov. 07, 2017). MOST WIKILEAKS EMAILS WEREN'T EVEN WRITTEN UNTIL AFTER DNC KNEW IT WAS HACKED. Daily Caller.

The majority of the Democratic National Committee (DNC) emails released by Wikileaks were not even written until after the DNC knew it had been hacked, raising questions about the effectiveness of Democrats' decision to turn to a private firm instead of the FBI.

DNC CEO Amy Dacey learned of the breach in late April, but of the 27,500 DNC emails published by Wikileaks, fewer than 7,000 pre-date April 29. A Daily Caller News Foundation analysis of the published emails shows that the majority were written between May 5 and May 25 – after cybersecurity firm CrowdStrike was brought in to respond.

The emails exposed dirty laundry that Democrats have said swayed the election in President Donald Trump's favor, and they might never have seen the light of day had the DNC enlisted law enforcement to immediately lock down its system after first detecting problems.

Although there has been no shortage of commentary on former Democratic National Committee head Donna Brazile's bombshell new book, Hacks, I want to zero in on one aspect of Brazile's revelations that has been overlooked: Brazile inadvertently lifts the lid and shows what her party really thinks about women.

Embedded in the book is a paternalistic (or perhaps in this case we should say maternalistic) attitude towards women. Brazile writes that after Hillary Clinton collapsed at an event marking the anniversary of Sept. 11, she considered, as apparently can be done by the DNC, replacing Clinton and running mate Tim Kaine on the Democratic ticket with Vice President Joe Biden and Sen. Cory Booker, D-N.J.

Brazile writes that she had already realized the Clinton campaign was "anemic" and that it had "the odor of failure." Thus a Biden-Booker ticket, in her view, had a better chance of staving off what she viewed as the unmitigated disaster of a Donald Trump victory.

Facebook's first president, Sean Parker, has been sharply critical of the social network, accusing it of exploiting human "vulnerability."

"God only knows what it's doing to our children's brains," he said.

His comments are part of a wave of tech figures expressing disillusionment and concern about the products they helped build.

Sean Parker, the first president of Facebook, has a disturbing warning about the social network: "God only knows what it's doing to our children's brains."

Speaking to the news website Axios, the entrepreneur and executive talked openly about what he perceives as the dangers of social media and how it exploits human "vulnerability."

"The thought process that went into building these applications, Facebook being the first of them ... was all about: 'How do we consume as much of your time and conscious attention as possible?'" said Parker, who joined Facebook in 2004, when it was less than a year old.

A report that President Trump asked CIA Director Mike Pompeo to meet with a former NSA employee who denies Russian interference in the U.S. election has drawn fire from two ex-intelligence chiefs.

The claim that emails were "leaked" rather than "hacked" is at odds with the assessment of the U.S. intelligence community, including Pompeo himself, who told the Senate Intelligence Committee as much in May.

Fed up with what he perceived as bureaucracy run amok at the U.S. Patent and Trademark Office, Paul Morinville staged a striking protest this summer, with inventors marching on the agency's Alexandria headquarters, holding signs and burning their patents.

He said too many patents approved by the agency had been revoked by administrative law judges at the Patent Trial and Appeal Board, which he said tends to side with major technology companies in disputes with independent inventors.

"If you like to steal other inventors' stuff, then you must love PTAB," said Mr. Morinville, managing director of U.S. Inventor Inc., an organization advocating for stronger patent protections for startups.

Since its creation by Congress in 2012, the board has angered the inventing community, which says the review process is biased.

Well, there goes a fair trial. The Podesta family has an interest in the Fusion GPS case going away and it just so happens that John Podesta, as of 2008, was teaching a course with Judge Richard Leon on congressional investigations since 1996 at Georgetown University

Law Center. John Podesta graduated from that institution in 1976.

The course entitled "Congressional Investigations Seminar" deals with "Congress' powers to conduct oversight and investigations of the Executive branch. This seminar will cover the scope of Congressional inquiries and investigations, Congress' subpoena powers, grant of immunity powers as well as hearing and rulemaking powers, the use of select committees, the GAO, and other special investigative techniques. The course will examine the use of prehearing depositions, rights of witnesses, preparation of witnesses, the role of the press and the interaction between Congress and prosecutorial functions including investigations conducted by special and independent counsel statute."

(Washington, DC) - Judicial Watch announced today that the Justice Department is now comparing former FBI Director James Comey to WikiLeaks. After Comey was fired by President Trump on May 9, 2017, he gave the New York Times a February 14, 2017, memorandum written about a one-on-one conversation he had with President Trump regarding former National Security Advisor Michael Flynn. Judicial Watch is asking a federal court to order the release of all Comey's unclassified memoranda about his one-on-one conversations with the president.

Comey testified under oath before the U.S. Senate Select Committee on Intelligence that he authored as many as nine such memos about his one-on-one conversations with President Trump. He also admitted, regarding the "Flynn" memo, "I asked a friend of mine to share the content of the memo with a reporter [for The New York Times] ... I asked him to because I thought that might prompt the appointment of a special counsel." The New York Times published a report about the memo on May 16, 2017. Special Counsel Robert Mueller was appointed the following day.

Jamie White. (Nov. 12, 2017). NV HOMELAND SECURITY PLANNED MOCK TERROR DRILL YEAR AHEAD OF MANDALAY BAY MASSACRE. Infowars.

LAS VEGAS (INTELLIHUB) – The Nevada Homeland Security Commission planned a mock terror drill over one year prior to the Route 91 Harvest Music Festival massacre after a 2016 “Channel 8 Eyewitness News” investigation uncovered flaws in the Las Vegas Valley emergency trauma system, reveals a Sept. 7 report.

According to the report, the “three-day test” took place at the Las Vegas Convention Center between the dates of Sept. 11-13 where participants mocked up an emergency triage area.

The drill dovetails with an Oct. 3 Intellihub report titled Vegas union worker blows whistle on “mandatory active shooter training” which was due “Sept. 30” at “12 a.m.” which exposed that “active shooter training” was, in fact, being held privately by at least one casino prior to the massacre.

[EDITORS: This is exactly the same kind of Homeland Security terror drill scenario that occurred at Sandy Hook! Isn't it uncanny how the Department of Homeland Security is always right next door while people are allegedly being killed/sacrificed by "terrorists" to further the U.N./globalist gun control narrative?

On Dec. 14, 2012, the Federal Emergency Management Agency (FEMA) and the Connecticut Department of Emergency Services and Public Protection was conducting long-planned disaster response exercises under the project name 'FEMA L-366, Planning for the Needs of Children in Disasters' at a site just 18 miles away from the Sandy Hook Elementary School.[806]

PARKER TRAMPLED ON ZUCKERBERG'S CREATION STORY.
HE CHOKED ON "INVENTORS," WHOOPS "CREATORS" OF FACEBOOK

Sean Parker inadvertently, uhm..., contradicted, you know..., Zuckerberg's Facebook creation story, as fabricated in The Social Network movie

In 2005, Zuckerberg originally claimed he programmed everything by himself in "one to two weeks"

In 2017, Parker admitted that many people were involved (in the IBM Eclipse Foundation theft of Leader Technologies' invention for rogue C.I.A. mind control)

On Nov. 09, 2017, Sean Parker, the founder of Napster and former president of Facebook, said the thought process behind building the social media giant was: "How do we consume as much of your time and conscious attention as possible?" Parker was interviewed by Axios' Mike Allen Wednesday:

INTENTIONAL MIND CONTROL: "That means that we needed to sort of give you a little dopamine hit every once in a while because someone liked or commented on a photo or a post or whatever ... It's a social validation feedback loop ... You're exploiting a vulnerability in human psychology ... Video @ 0m53sec:

PARKER (2017): "The inventors [he choked and corrected, with big hand gestures] creators, you know, and it's me, it's Mark [Zuckerberg], it's the, you know, Kevin Systrom at Instagram, it's all of these people, ahm, understood this, consciously, and we did it anyway." This statement directly contradicts Zuckerberg's earlier claims:

ZUCKERBERG (2005): "Q. Were you the initial code writer of the initial code for Facebook? ZUCK: Yes. Q. Was there anybody else who assisted in writing the initial code for Facebook? ... ZUCK: No. ... Q. So you wrote the code for Facebook in a period of one to two weeks before it was launched [on Feb. 4, 2004]; is that right? ZUCK: The original version, I think so." Tr. 37:15-20, 41:9-12.

This Freudian Parker admission is yet more proof that Zuckerberg, Harvard president Larry Summers, and the entire crowd of social networking companies that emerged in 2004 all received their initial software programs from the IBM Eclipse Foundation founded by IBM counsel David J. Kappos. Eclipse, in turn, received its initial source code base from Columbus innovator Leader Technologies via Leader's corrupt patent attorney, James P. Chandler, III. Chandler is now notoriously known for being a consigliere for the Deep State shadow government and rogue C.I.A., as this Timeline reveals.

Rep. Jim Jordan to Jeff Sessions: It's time to do your job

Republican calls on attorney general to appoint special counsel to probe Clinton investigation.

Mr. Attorney General, it's time to do your job.

Why in 2016 did FBI Director James Comey call the Clinton Investigation a "matter," not an investigation? After all, Mr. Comey wasn't Director of the Federal Bureau of Matters.

Why in 2016 did James Comey and the Justice Department give Cheryl Mills, Secretary Clinton's Chief of Staff, an immunity agreement for turning over her laptop computer? Typically, the Department would issue a subpoena or get a warrant and seize it. Why in this case did the FBI agree to destroy the laptop?

Many more questions...

Sasgar Enjeti. (Nov. 13, 2017). IT'S BEEN A YEAR, AND WE STILL DON'T KNOW WHO'S BEHIND WORST NSA LEAK IN HISTORY. Daily Caller.

U.S. investigators remain stymied after more than a year of investigating as to how some of the most sensitive hacking tools developed by the National Security Agency (NSA) fell into the hands of hackers, The New York Times reports.

The hunt for the mole, moles, or leaks has reportedly caused a major drop in morale at the agency as employees are subjected to intense security checks. These checks include polygraph tests, turning over their passports, and other scrutiny detracting from day to day jobs.

Intelligence officials characterized the leak of hacking tools as far outstripping any damage done by 2013 leaker Edward Snowden. The leaked information has slowly been posted online by a hacking group known as "The Shadow Brokers" purportedly selling the information. Some officials feared the Russian government may be behind the group.

Chris Agee. (Nov. 13, 2017). KEURIG AND 5 OTHER COMPANIES FACE BOYCOTT FOR PULLING ADS FROM 'HANNITY' FOR COVERING ROY MOORE. Western Journalism.

Amid ever-growing criticism, several companies have recently announced plans to pull all commercials usually aired during Fox News Channel's "Hannity."

The decisions came after public criticism of host Sean Hannity's Thursday night coverage on the allegations that Alabama U.S. Senate candidate Roy Moore pursued relationships with multiple teen girls when he was a prosecutor in his 30s.

The widespread disapproval was largely based on Hannity's use of the word "consensual," which he used during his radio commentary "The Sean Hannity Show" to describe the relationship between Moore and his accusers, whose ages range from 14-years-old to 17- and 18-years-old.

Hannity later backtracked during his show on Fox News, admitting the statement he'd made "was absolutely wrong," and that he had "misspoke" when describing the situation, according to The New York Times.

A report from Deadline suggested that Hannity was speaking only about the accusers who were 17 and 18, and that the "context of the discussion about Moore, was interpreted as including 14-year-olds" — a relationship Hannity has previously condemned as "disgusting."

However, the host also "brought up the possibility of accusers lying for money, or for political purposes," urging his audience to reserve judgement against the embattled candidate, which only sparked the fuel critics used to create a boycott of the Fox News host.
