DEATH OF WARMONGER ANDREW MARSHALL EXPOSES 100-YEAR NWO PATENT THEFT RING

Institutionalized patent theft has driven American and British (fascist) economies for 100 years

Marshall directed Highlands Group *patent theft planning as government policy* with James P. Chandler, III since 1973 through the DoD Office of Net Assessment & DARPA

Marshall's overseer was law professor James P. Chandler, III, author of the Economic Espionage and Trade Secrets Acts of 1996 (Oct. 10, 1996). Chandler was responsible for the theft of Leader Technologies' invention of social networking at its weaponization by the Highlands Group, IBM Eclipse Foundation and Silicon Valley.

NEWS UPDATE! APR. 25, 2019

Leader Technologies, Inc. sent their [FIRST AMENDED MILLER ACT NOTICE](#) to President Trump today. It is a contract demand for the U.S.

Treasury to pay them for the federal government's 18-year theft of their social networking inventions. These inventions were stolen by Leader's patent attorney James P. Chandler, III, on behalf of Andrew W. Marshall and the Department of Defense Office of Net Assessment that steals and weaponizes inventions for continuous war making and enrichment of its fascist insider military-industrial corporations.

Patriots are encouraged to help get this First Amended Miller Act Notice to President Trump and past the Pretorian Guard. See [American Intelligence Media](#) republich of the Leader Miller Act Notice.

FEDERAL PATENT WEAPONIZATION THIEVES

James P. Chandler, III

Andrew W. Marshall

Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly wanted to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-

Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the person's corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics, precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptocrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

ORIGINAL POST

(APR. 17, 2019)—The theft and weaponization of Nikola Tesla’s wireless inventions by the British Privy Council (formalized by Parliament on **Aug. 08, 1913**) signaled a shift in the new world order control strategy away from natural resources like mining and agriculture to intellectual property and technology.

movement and its "mutually assured destruction" war strategy where inventions are weaponized continuously.

Our previous posts have shown how the British Empire and its axis of robber baron bankers in London and New York conspired to steal Nikola Tesla's wireless inventions and weaponize them for mass brain washing. They learned quickly that whatever the world heard on the radio, they believed, **even if it was a total lie.**

For example, historians agree that the British were not particularly anti-German before World War I. In fact, the House of Windsor is of German ancestry—the House of Saxe-Coburg-Gotha.

However, socialism and notions of a one world order were sweeping the world at the time, so the bank robber barons of the time (e.g., Rothschild, Rockefeller, Rhodes, Carnegie, Milner, Vanderbilt, Hambro, Warburg, Bush, J.P. Morgan) devised a clever plan to assume control of colonial resources using private corporations to create a new empire based on British federalism. It included a plan to bring America back into an Anglo-American empire and destroy their main commercial competitors—the Germans and Russians.

In short, these Anglo-American robber barons believed that a *world war* would accelerate their plans for permanent global control based in the **Cecil**

Rhodes' Manifesto to control the world through private corporations based in London and New York.

To foment war with Germany, they used wireless, print and film media along with Britains most talented fiction writers (e.g., William Archer, Hall Caine, Arthur Conan Doyle, Arnold Bennett, John Masefield, G. K. Chesterton, Henry Newbolt, John Galsworthy, Thomas Hardy, Gilbert Parker, G. M. Trevelyan, H. G. Wells and Rudyard Kipling) to fabricate stories of German atrocities that **never happened— "false flags."**

In short, practically the whole of British literary society was in on this **horrific propaganda lying to the British and world population to foment a world war** so that American and British robber barons could consolidate their control of resources, wireless communications and political power under British federalism.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Sanction. Certify.

Contact your representatives. Ask them to pass it.
Real American inventors need your support.

Ask yourself if any subsequent action by a country that is based upon such lies can be anything but the *fruit of a poisonous tree*. The argument at the time was that the Germans were doing it too, so we had to counter. They countered one evil with another. This is the economic and political foundation of the modern world, including the United Nations, Atlantic Council, Council on Foreign Relations, Bilderberg, Tri-lateral Commission, NATO, etc. They're all based on lies. Good fruit cannot grow in poisoned ground.

GLOBALIST NWO PATENT THEFT RING TIMELINE

Here is a timeline that focuses on the patent theft activities of the robber barons that continues to this very day, with largely the *same* players.

In 1900, GEC was incorporated as a public limited company in the UK, The General Electric Company (1900) Ltd (the '1900' was dropped three years later).

On Aug. 08, 1913, Parliament agreed to a 28-year monopoly contract (renewal in 1941) with Marconi Wireless, facilitated by Charles F.G. Masterman, a Cecil Rhodes relative and the founder of The Wellington House, British War Propaganda Bureau in Aug. 1914. See Fig. 4 above.

On Oct. 17, 1919, RCA was founded by General Electric (GE) after having purchased the American assets of Marconi Wireless (later ruled by the U.S. Supreme Court **on Jun. 21, 1943** to have been stolen from Nikola Tesla).

GE founder was Thomas Edison where Tesla had worked in 1884. Notably, Edison and GE were heavily backed by robber barons JP Morgan and Vanderbilt. JP Morgan later pulled the financing from a Tesla

Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. December 7, 1942

My dear Mr. President:

You have directed the **Office of Alien Property Custodian** to seize all patents controlled by the enemy, regardless of nominal ownership, and to **make these patents freely available to American industry**, first for war purposes of the United Nations, and second for general use in the national interest.

Today I can report satisfactory progress in this program. We have vested the bulk of the enemy patents and pending patent applications. We are now engaged in identifying and vesting the patents owned by nationals of enemy-occupied countries and the scattering enemy patents which require more detailed study. By December 31 of this year, every patent and patent application standing in the name of a national of an enemy or enemy-occupied country will have been vested, except for a few cases of disputed ownership requiring further investigation. **We shall then control over 50,000 patents**, representing some of the **finest research achievements of modern science**, particularly in the production of dyestuffs, plastics, pharmaceuticals, and electrical goods.

judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored **shocking new evidence** that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Patents held by corporations supervised or controlled by the Alien Property Custodian

When the Alien Property Custodian vests or supervises corporations domiciled in the United States which have patent rights, a different patent and patent licensing policy will be followed by this Office. Patents held by the vested or supervised corporations will be administered by their managements along with their other assets in the legitimate interests of these corporations and of their American shareholders; these patents, however, will be administered in accordance with broad policies laid down by the Custodian. On Mar. 05, 1946, British and American spies signed a top secret intelligence sharing agreement for their stay-behind units in the SOE (Special Operations Executive), OSS (Office of Strategic Services) which became the C.I.A. and "Five Eyes" (U.S., UK, Canada, Australia and New Zealand—consistent with Cecil Rhodes' Manifesto for re-assimilation of America into a federated British new world order), mostly gathered from wireless and telephone communications built on stolen patents. This agreement was only declassified by the NSA on Apr. 08, 2010, just months before the Leader v. Facebook patent infringement trial (began

On Sep. 18, 1947,

the C.I.A. was formed under the National Security Act of 1947. The C.I.A. immediately took charge of managing and expanding the stay-behind units of the British & American SOE throughout the world, managing the operation and its financing from Zurich, Switzerland robber baron banking interests via stolen wireless and wired technologies.

On Oct. 24, 1947, the National Security Agency (NSA) was formed using stolen wireless and wired technologies. The Mar. 05, 1946 intelligence sharing agreement wrapped in the British MI-6 and the newly forming GCHQ as part of the American-British Commonwealth "Five Eyes" spying treason that sold out American sovereignty to the United Nations new world order agenda.

On May 14, 1956, RCA Photophone was renamed RCA Great Britain Limited.

On Mar. 03, 1969, RCA Great Britain Limited was renamed RCA Limited.

On Oct. 13, 1978, the Senior Executive Service (SES) was formed. The SES was ostensibly to enhance U.S. government bureaucracy with private sector executive

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that [Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.](#)

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence.

skills. However, hindsight shows it was to create a Fifth Column of public-private corporate collaborators who used government contracts to enrich selected corporations. In so doing, the SES was modeled after the operations of the Queen's Privy Council and Crown Agents as an unelected U.S. shadow government.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Andrew W. Marshall was paid by the SES as the DoD Director of Net Assessment. See [1980 Plum Book, p. 161](#). See also [AFI \(Mar. 16, 2018\)](#). Obama hired them. Trump cannot fire them. So they say. *Americans for Innovation*.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according

On Jun. 20, 2000, Sir Geoffrey Pattie was awarded the Silver Star Award in Washington, D.C. as the evident excuse/cover to come to Washington, D.C. to be briefed on Leader Technologies' solution to the Office of Net Assessment and SERCO's scalability stumbling block with IBM and Microsoft platforms. This was just 12 days after law professor James P. Chandler, III, had been **fully briefed on Leader Technologies social networking inventions**. Chandler also directed/advised Andrew W. Marshall and the DoD Office of Net Assessment on weaponizing patents.

Fig. 10—James P. Chandler, III.

Fig. 10—On Jun. 08, 2000, Professor James P. Chandler, III (black man on back right to the left of his legal assistant, Kelley Clements) participated in seminal Leader invention design sessions in Columbus, Ohio where he learned the essences of Leader's social networking innovations, ostensibly to use this knowledge in Leader patent applications. Hindsight shows he was there to steal the invention for the benefit of his hidden (real) clients, the DoD Office of Net Assessment, The Highlands Group and IBM, among others. Chandler had signed multiple attorney-client engagement letters with Leader Technologies promising to maintain attorney-client confidentiality. Evidently, the man had no honor or integrity. Sources tell us that Chandler boasted to everyone that he believed his mission was "to protect the intellectual property of the United States," whatever that meant in his twisted reality. He knew that his clients believed that this mission statement included protecting their trade secrets, which history shows it did not.

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

CONCLUSION:

One hundred years into [Cecil Rhodes' 200-year Manifesto](#), the British Crown, via the American Senior Executive Service (SES) that employed Mega Warlord Andrew W. Marshall and SERCO, has been given full control of America's most valuable intellectual property assets – the U.S. Patent Office.

Stay tuned.

Follow up posts will focus on James P. Chandler, III's leadership over Andrew H. Marshall and the Office of Net Assessment / Highlands Group.

A war monger responsible for the deaths of millions of souls around the world is dead. Now we must unwind and dismantle his SES treachery.

SOUND THE ALARM!

The British have *already* been given Washington, D.C., Wall Street and the engine of the American economy—the U.S. Patent Office by American traitors.

Diana West. (Apr. 19, 2019). Is the Mueller Report the Son of the Steele Dossier? The Epoch Times.

Hesitant about working my way through the Mueller report, I found myself gratified to hear Rep. Devin Nunes's assessment of the thing.

According to Nunes, there is only one item of relevance in the entire 450-page document. While it is an item of significance, it confirms something many have long suspected.

Nunes explained that on page 11 there is a veiled disclosure to the effect that the "scope memo," the directive Deputy Attorney General Rod Rosenstein gave Special Counsel Robert Mueller in August 2017, included "the Steele dossier, the Clinton dirt, the Clinton-paid-for dirt as part of the memo for the special counsel that directed the special counsel what to do."

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and
- (3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
