HEALTHCARE.GOV DOOMED BY WIDESPREAD UNETHICAL CONDUCT

PRES. OBAMA'S FACEBOOK COMPLICITY MAKES THE WEBSITE A FOOL'S ERRAND

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | NOV. 26, 2013, UPDATED MAR. 15, 2014, POST-SCRIBED CENSORSHIP | PDF

(NOV. 26, 2013)—New evidence proves that President Obama is ethically bound to recuse himself from Obamacare decisions, as should his chief technology officer, Todd Y. Park.

Yesterday, AFI received a copy of the 2006 Senate financial disclosure for Edward M. ("Ned") Lamont and his wife Ann H. Lamont ([CLICK HERE](#)). Investigation into the Lamonts began after discovery of her close business associations with Todd Y. Park.

A SPIDER'S WEB

A spider's web of self-dealing and conflicts of interest emerged. See. Fig. 1. The [Standards of Ethical Conduct for Employees of the Executive Branch](#) tell employees to "avoid even the appearance of impropriety." Actual undisclosed conflicts of interest are serious offenses, and demand immediate redress to prevent damage to the body politic.

PARK ONLY PRETENDED TO DIVEST HIS CONFLICTS

Massive corruption renders Obamacare and HealthCare.gov dead on arrival

When President Obama first appointed Park to be chief technology officer (CTO) for Health and Human Services (HHS), [the press asked Park about his conflicts of interest](#) as founder, director and lobbyist for Athenahealth. Park promised to sell his \$30 million in stock and options. Fair enough.

However, instead of divesting himself of his conflicts in 2009, he doubled down. Chief among

Athenahealth's shareholders were Ann H. Lamont; Lamont's venture firm Oak Investments; venture capitalists Draper Fisher, Cardinal Health and Venrock; and his brother Ed Y. Park.

THE PRICE OF TODD Y. PARK'S SOUL: \$160 MILLION

A year earlier, in Jan. 2008, Park had formed Castlight Health. On Aug. 4, 2009, Park was appointed HHS CTO by President Obama. Then, just 10 months later in Jun. 2010, Park's private Castlight Health company received a whopping \$60 million investment from Morgan Stanley, Oak Investments (Ann H. Lamont), Venrock and the Cleveland Clinic. He received another \$100 million in May 2012. T. Rowe Price jumped on the second-round bandwagon.

Park's conflicts are astounding. No less than three of the Athenahealth entities with whom Park had earlier admitted conflicts, were now back on center stage privately funding Castlight Health. Concurrently, Park was designing and developing HealthCare.gov—without disclosing these conflicts. As troubling, President Obama's chief adviser on Obamacare, Robert Kocher, MD, joined Venrock and the Castlight Health board of directors, along with Ann H. Lamont, and Facebook's CFO, David A. Ebersman.

These conflicts were layered on top of Park's prior association with government contractor Booz Allen Hamilton where he was formerly employed. Booz Allen is the primary subcontractor to HealthCare.gov contractor CGI Federal. CGI's senior vice president, Toni Townes-Whitley, is a friend and fellow college alum of Michelle Obama. In any professional public board room, giving preference to friends and family is a conflict of interest on its face. CGI received the \$634 million HealthCare.gov contract without a bid. Such conduct can only be described as audacious impropriety.

In addition, the HealthCare.gov website claims the social networking technology it uses is "open source," yet fails to disclose that Columbus innovator Leader Technologies proved Facebook guilty on 11 of 11 counts of infringing Leader's patent. Facebook's counter is that it prevailed on an "on-sale bar" verdict. ([See previous post.](#)) The on-sale bar verdict was achieved without evidence, and is mired in corruption since all the judges, including Chief Justice John G. Roberts, held stock in Facebook during the proceedings.

In yet another layer, Mark Zuckerberg withheld 28 hard drives and Harvard emails from Leader's attorneys, then lied to the court that they were lost. In fact, they were in the possession of Facebook's appeals attorney, Thomas G. Hungar, Gibson & Dunn LLP, the entire time, by the admission of [Facebook's own experts in Ceglia v. Zuckerberg](#). The courts have taken no steps to redress this evident misconduct. All Facebook arguments are attorney sophistry, not hard evidence. Clearly, that's all that these corrupt federal judges needed not to rule against Facebook to protect their personal financial interests.

TODD Y. PARK WORKS FOR FACEBOOK; PRES. OBAMA ALONG FOR THE RIDE

Researchers discovered late last week that Ann Lamont served as a director of the National Venture Capital Association (NCVA) at the same time as James W. Breyer, Accel Partners (Facebook former director and largest shareholder); Robert C. Ketterson, Fidelity Funds (large Facebook investor); and Anne Rockhold, a previous Vanguard (large Facebook investor) CFO and current Accel Partners CFO. The researchers suspected that direct financial relationships were lurking in the weeds.

The White House and HHS failed to produce Park's financial disclosures, but Ned and Ann Lamont's was located. Lamont ran as the Democratic candidate against Democrat turned Independent Senator Joe Lieberman in the 2006.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

STOP FACEBOOK PROPERTY THEFT

W L L HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

FIG. 2—EDWARD M. ("NED") LAMONT AND ANN HUNTRESS LAMONT (A.K.A. ANN H. LAMONT) Senate Financial Disclosure, 2006. [CLICK HERE](#) for a copy of the full 96 page disclosure. Source: U.S. Senate.

The hard proof of Park's conflicting relationships emerged on page 93 of 96. The impropriety of Lamont's failure to disclose the value of these holdings aside, Lamont nonetheless disclosed the names of [four venture capital funds owned by Ann H. Lamont](#), namely:

1. Meritech Capital Affiliates II, LP.
2. Meritech Capital Affiliates, LP.
3. Oak Meritech II, LLC.
4. Oak Meritech Associates III, LLC.

Venture capitalists use mundane names like these for their investing entities. The names tend to be variations of "Affiliates," "Associates," "Holdings" along with roman numerals. It is not unusual to see five or ten variants of the same fund in a single round of investing.

PARK AND LAMONT ARE MEMBERS OF THE FACEBOOK CLUB

In 2004, Lamont's "[Meritech Capital Affiliates, LP](#)" (see No. 2 above) invested with James W. Breyer and many of his partners at Accel Partners in [PEOPLESUPPORT, INC.](#) Lamont and Breyer were both National Venture Capital Association directors at the time. These SEC records prove that Lamont and Park are tied to Breyer and other key Facebook interests. In addition, Meritech was a part of the group of Facebook insiders who cashed in over \$16 billion of their shares on Day 3 of the Facebook IPO, during the supposed NASDAQ "glitch," before the price plummeted.

Lamont's portfolio shows [62 Goldman Sachs](#) and [19 JPMorgan Chase](#) investment funds valued at up to \$71 million. The portfolio reads like a Who's Who of the Facebook IPO. Fidelity, JP Morgan Chase, Morgan Stanley, T. Rowe Price, Microsoft, IBM, even Boston Scientific. All these entities had a vested financial interest in ensuring that Facebook went public years later. This explains the silence from the financial press when Leader Technologies proved in 2010 that Facebook is infringing its patent.

TODD PARK'S RECUSAL: Todd Y. Park's broad conflicts of interest dictate that he recuse

himself from involvement in Obamacare and HealthCare.gov

PRES. OBAMA'S RECUSAL: Due to Michelle's conflicts and the tainted advice of Todd Park and other advisers, President Obama should recuse himself from decision making on Obamacare and HealthCare.gov. The President of the United States must set the example of propriety. Not to disqualify himself is to send the signal that ethics is unimportant.

AMERICA'S HEALTHCARE DATA SHIPPED TO SWEDEN

Facebook has a fully operational server center offshore, in [Lulea, Sweden](#) ("Inside the Arctic Circle, Where Your Facebook Data Lives" by Ashlee Vance, Business Week, Oct. 4, 2013). If we let these people continue to manipulate America's healthcare data, it is certain that America's private healthcare information will be "liberated" to overseas locations like Sweden, well beyond the reach of U.S. law and accountability.

HEALTHCARE.GOV: PARABLE OF THE WISE AND FOOLISH BUILDERS

Jesus Christ's parable of the wise and foolish builders comes to mind when considering what must be done with Obamacare and HealthCare.gov. The foolish builder built his house on sand. When the rains came, and the rivers rose, and the winds blew, the house fell with a great crash. [Matthew 7:24-29](#).

Obamacare and HealthCare.gov have been rendered useless by the massive corruption that began with the Commander in Chief, trickled down through his Chief Technology Officer, flowed through his staff, cabinet, and agencies; it compromised courts and media, and threatens to destabilize American democracy itself. The President's response to this demand for recusal will be telling.

Dale's comment illustrates why these scoundrels are getting away with their criminality. The average person tends to believe what they are told when they are looking at a process like software that they do not fundamentally understand. This is no different than a mechanical novice taking his car to a garage and being handed a huge bill and his keys with assurances that everything is fixed. Two hours later, the engine stops running because the mechanic was lying. The only difference is the cleverness of the explanations coming out of the Administration. Those "sophisticated" excuses are why Harvard is so expensive. The great leveler is that expensive lies are still lies.

Wow! Another kool-aid drinker!

I hope they don't use the same standards you just gave when repairing boats, planes and trains. The Facebook crowd seems to think it is OK and acceptable to have substandard programs and software! The cost is 100's of times more expensive than what could have been developed in the private sector and then supposedly gets fixed in less than 30 days except for the glitches they say still exist.

Experts in application and system tuning use the terms: "hogs, frogs, and dogs" to describe different types of transactions. Hogs use up a lot of system resources. Frogs are efficient applications that run quickly and smoothly. Dogs are applications that need a lot of work for provide proper functionality and then run efficiently. To get to an 80% level of efficiency for the functions the Administration has announced, it looks like the team worked on the hogs and frogs. The dogs need to be triaged for a later effort. They also added major "horsepower" in hardware to help the applications run faster.

However, this does not even address the serious privacy and security issues embedded in these systems.

And don't be fooled by proclamations of success. It's like the baseball team announcing victory after 80% of the innings were played (22 of the 27 outs had been achieved---still leaving another 5 outs to go.) And we know what can happen in the last two innings of a game.

False promises were made and continue to be made. The cover ups will continue, too. It looks like the hogs, frogs, and dogs have been joined by skunks.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three

judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 [here](#).) He also contradicted his own instruction to Leader to answer

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. [See his Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned.

—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*.

Judge Wallach

continued in silence even after Clerk of Court

Horbaly failed to provide him with

Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at [Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment

constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v.*

Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle

with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

Judge Rader also did not stop his judges from

creating new arguments and evidence for

Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.
