CHINESE "SOCIAL CREDIT" DIGITAL PRISON WAS CREATED IN AMERICA BY THE CLINTONS

Creators of this digital dystopia: Hillary’s Acxiom and ENTRUST, FTC, SES, Silicon Valley, In-Q-Tel, Highlands Group, IBM Eclipse Foundation

A persecuted Chinese minority is Hillary’s beta testing guinea pig

On Oct. 01, 2018, Hillary’s Acxiom transferred America’s “dark profile” personal data to China where Acxiom also controls China’s digital keys via ENTRUST

DEEP STATE
SHADOW GOVERNMENT POSTER

Harvard | Yale | Stanford | Oxbridge (Cambridge, Oxford) | Sycophants

LEGEND: Some corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text “Corruption Central” meaning we have put the person’s conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly wanted to see a rifle sight (as her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing “By this sign, you shall conquer” vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the person’s corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. Judge Jackson did, in true Godly fashion, make a call to prayer and repentance based upon microscopy, observation of the corruptocrat’s conduct. For Judge Jackson to use her ignorance of this symbol to evade the gag to give Roger Stone’s FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

Fig. 1—The Chinese government has already deployed a “social credit score” system in the Xinjiang Uyghur Autonomous Region (XUAR) (21.8 million people—more than Florida). On Oct. 10, 2018, the U.S. Congress published findings that China has “expanded collection of biometric data, growing surveillance networks, and continued development of the social credit system. Reports show that social and political management of the Chinese people was aided by smart technology and advances in artificial intelligence (AI) in new ways this past year, including efforts to create ‘a pervasive system of algorithmic surveillance.’” The digital dragnet includes low-paid “convenience police stations” laid out in a 500 meter grid across whole cities to preemptively arrest people with low social credit scores.

On Sep. 27, 2018, Google-Alphabet’s Eric Schmidt sang the praises of Chinese business while he lied that such totalitarian restrictions on the Chinese Internet would not occur for a decade. They are here now, and Google-Alphabet-Schmidt rogue C.I.A.) is helping the Chinese government repress its people.

Are we witnessing in the social credit score the implementation of “The Mark of the Beast?”

—“It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name. This calls for wisdom.”

The Book of Revelations 13: 16-18

See Fig. 8 below—“The BEAST is here. What is your SM number?”

(OCT. 12, 2018)—Most Americans know about a FICO score. It measures consumer credit risk. It is named after the Fair, Isaac and Company data analytics firm based in San Jose, CA. It scores a person’s ability to pay back loans. The higher your score, the easier it is to get a loan on better terms. The lower your score, the more difficult it becomes.

Social networking has created new opportunities for data brokers to collect more kinds of data on you. Vulture lawyers now hover over this new space. In 2001, they re-wrote end user license agreements to lure unsuspecting Internet users into giving away their personally identifiable data in return for free stuff. The typical uniformed user response is “I don’t have anything to hide” as the data brokers rub their hands together fiendishly.
EXPOSING CHINA'S (HILLARY'S) DYSTOPIAN DICTATORSHIP

SOCIAL END USER LICENSES: IMMORAL ABUSES OF THE BILL OF RIGHTS

For example, the current Google Terms of Service, under “Your Content in our Services,” paragraph one says “You retain ownership of any intellectual property rights that you hold in that content. In short, what belongs to you stays yours.” So far so good.

But now, the legal sleight of hand follows in the very next sentence:

“When you upload, submit, store, send or receive content to or through our Services, you give Google (and those we work with) a worldwide license to use, host, store, reproduce, modify, create derivative works (such as those resulting from translations, adaptations or other changes we make so that your content works better with our Services), communicate, publish, publicly perform, publicly display and distribute such content.” [Sucker]

Google-Alphabet giveth, and Google-Alphabet taketh away.

This is proof positive that freedom loving peoples cannot allow spies, lawyers, bankers, accountants and programmers to control our social discourse.

This is proof that these people, in whom we invested our trust, are criminals and not worthy of that trust.
ABUSE OF THE U.S. CONSTITUTION STARTED THIS SLIDE INTO TOTALITARIANISM

This abuse of the Fourth and Fifth Amendment (rights to privacy and property) has its legal genesis in the Highlands Group, Sir Geoffrey E. Pattie and the Queen’s Privy Council, IBM [rogue C.I.A.] Eclipse Foundation. Obama’s eventual Patent Office director and former IBMer David J. Kappos, and law professor James P. Chandler, III who promoted an “IBM Common Public License 0.5” draft. This occurred at the same time that these criminals began giving away to Silicon Valley the social networking invention on (Aug. 29, 2002) that Chandler had stolen from his client—innovator Leader Technologies, Columbus, Ohio. Other innovators, like Dr. Lakshmi Aranachalam (Menlo Park, CA) and Joannes Van Der Meer (Amersfoort, Netherlands), were equally abused.

OBAMA’S BIG DATA “DATAPALOOZA”—FEASTING ON THE SEVEN DEADLY SINS

With the advent of social networking data, data brokers starting in 2004 after IBM EclipseCon 2004 (Feb. 2-5, 2004), became like wild dogs feeding on red meat. The rush to feed on the new social data was a literal stampede of immorality. By 2007, everyone was jumping on board and the rogue C.I.A. was loving it. Note: Facebook launched during this conference. They did not resist the temptation to engage in the seven deadly sins (i.e., pride, greed, lust, envy, gluttony, wrath and sloth) to exploit these new kinds of data on social interactions suddenly available to them.

In an unguarded moment, George Washington University law professor James P. Chandler, III told Leader’s lead inventor and CEO, Michael McKibben (his client), that he believed if a person could invent something, he or she should invent that thing—no matter the moral consequences. He said he believed that the law (lawyers) would eventually catch up to the bad consequences.

McKibben says he pushed back, saying that lack of respect for the image of God reflected in a fellow human being (Gen. 1:27) should be a natural check on an inventor, especially for computer systems where the average person cannot see the bits and bytes. McKibben observed that unchecked technological changes would overwhelm the plodding legal process unless technologists themselves practiced moral restraint.

Hindsight proves that Chandler’s argument was self-serving since his conspirators at IBM were busy stripping out the privacy and security controls in McKibben social networking invention that Chandler had fed to them off of Leader’s storyboards. . . all in the name of national security and counterterrorism, of course.
By stripping out the privacy and security controls in McKibben’s version of social networking, the data broker rogues have had their way with your personal data.

TECHNO-FASCIST SIREN SONG: “PRIVACY IS FOR OLD PEOPLE”

NO, PRIVACY IS THE RIGHT OF CITIZENS IN A CONSTITUTIONAL REPUBLIC

To promote the death of privacy, Silicon Valley bad boy Reid Hoffman (PayPal, C.I.A., LinkedIn, Facebook, WhatsApp, Instagram) famously said at a 2010 World Economic Forum seminar that “privacy is for old people.” This was certainly a self-serving Siren Song by one of the world’s most heinous privacy abusers.

On Mar. 09, 2012, President Obama hired Silicon Valley trickster Todd Y. Park as his White House chief technology officer. Park promoted “Datapalooza” across all key agencies of the Executive Branch to “unlock” that data they keep.

In sophomoric rah rah Datapalooza cheerleader gatherings, Park released massive amounts of “Big Data” to his Silicon Valley venture capital cronies in all sorts of fields including healthcare, weather, space, housing, environment, food, agriculture, disease, commerce, financing, banking, geology, census, law, transportation, disasters, oceans, forests, aid, education, science, research, money, shipping, communications, fish & wildlife, recreation, safety, intelligence, policing, insurance, labor, border protection, patents, copyrights, trademarks, animal life, rail, trucking, automobiles and manufacturing

Park disclosed no conflict with his Silicon Valley handlers. As a reward, Obama even let Park take his healthcare data company, Castlight Health, public while Park worked at the White House! That is so illegal. It violates our most basic conflict of interest laws prohibiting a public figure from trading on his public position for private gain. Equally illegal, Obama loaned Park to the Hillary for President 2016 campaign to coordinate the highly illegal collaboration between Facebook and Eric Schmidt’s U.S. Digital Service run out of the White House.
HILLARY’S DATAPALOOZA

One of the key beneficiaries of Park's datapalooza has been Jerry C. Jones, a 19-year law partner with Hillary Clinton in the Rose Law Firm, Little Rock. See Acxiom insider trading report.

As of Oct. 1, 2018 (just eleven days ago), Acxiom moved to Shanghai, China and changed its name to “Live Ramp,” but not to worry, Acxiom still holds 100% controlling interest in 27 subsidiaries in the US, Netherlands, China, Australia, Brazil, Germany, UK, France, Poland, New Zealand, Singapore, Cayman Islands and Mauritius. In addition, Acxiom has had 48 contracts with the U.S. government (GSA, State Department, Veterans Affairs).

Acxiom customers include most U.S. social and telecommunications providers including AT&T, Comcast, Cisco, Adobe, Comscore, Dish, Facebook, Foursquare, HP, Gay Network, IBM, Microsoft, Pandora, Pinterest, Spotify, Tivo and Yahoo! These companies are also all IBM Eclipse Foundation members. Every one of these companies is dependent on ENTRUST certification directly, or through a sublicensor. ENTRUST even licenses digital keys to the Government of China Financial Certification Authority, the People’s Bank of China, Entrust China Aerospace New World.

Did Acxiom/ENTRUST take America’s data with them to China? Evidently YES (although it was probably already there, but us We The People saps did not get the memo).
WHY CHINA?

Why China? Because China’s leader Xi Jinping has already implemented a “Social Credit System” that has combined much more than financial data to create detailed profiles on its citizens. Commentator Douglas Gabriel from American Intelligence Media calls them “digital boxes.”

On May 01, 2013, Obama’s Federal Trade Commissioner Anita Ramirez—a long-time member of the Senior Executive Service (SES, Plum Book 2016, p. 178) gave the green light for Acxiom (the largest data broker she studied) to build a Social Credit System in the U.S. without consequence. She published “an in depth study of nine data brokers” titled “Data Brokers - A Call for Transparency and Accountability.”

They reported that an unnamed company (probably Acxiom) was keeping track of over 2,000 types of information on you. With this level of detail they are actually able to accurately predict your thoughts. See “Illustrative List of Data Elements and Segments” (FTC/SES Ramirez, p. 97).

Ramirez’s conclusions were maddening. After calling for transparency and...

Edith Ramirez, former Commissioner of Federal Trade Commission (FTC), Senior Executive Service (SES) member.

Indeed, Ramirez “pulled a Comey” on the public. She laid out the sins of the data brokers, just like Comey outlined Hillary Clinton’s private server sins, then she essentially exonerated Hillary and Acxiom by taking no regulatory action. In short, Ramirez gave the data brokers the go ahead to continue their abuses.

Now we know why our government is so flaccid. Too many of our regulators and members of Congress are beneficiaries of this Datapalooza. Most of them are deeply invested in illegal stock tips (insider trading) that they have received from these wrongdoers. They are beneficiaries of this immorality.

Many of the people that we have entrusted with governing us are abusing us instead. It is past time for We The People to seize the reigns of control of our government. We have that right and duty. The fact is, we may never have had the freedoms we think we have, given the way our banking system has been manipulated by the British City of London following the American Revolution.

But now, perhaps we can finally establish a working version of governance that our Founders envisioned.

ALIBABA, ANT FINANCIAL AND ALIPAY

The largest Chinese mobile payment platform supporting this dystopian digital surveillance and social credits is Ant Financial. Ant is a subsidiary of the megalopoly Alibaba—a creation of American, British and European banks, the usual suspects: Goldman Sachs, JP Morgan Chase, Wells Fargo, Deutsche Bank, HSBC, Barclays, Citibank and Credit Suisse.

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs., Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader’s prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook’s entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to...
Ant Financial, as an Alibaba subsidiary, recently received a $14 billion investment from Silicon Valley, including Warburg Pincus, Carlyle Group, Sequoia Capital, Wharton Alumni Angels and IDG Capital (Accel Partners, James W. Breyer, John P. Breyer, Facebook).

On paper, Alibaba is about 30% owned by Softbank which is dominated by the usual Deep State shadow government SE5 suspects like Vanguard, Wells Fargo, Fidelity, Sequoia, Carlyle, IDG, Accel Partners, James W. Breyer, John P. Breyer, Kleiner Perkins, etc.

Meet the “heavy burden” of the clear and convincing evidence standard.

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie’s T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook’s evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks.

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even
BREYER (2005): SECRET "WIN-IN-CHINA" HONG KONG COMPANY INCORPORATED (HSBC SWISS LEAKS)

On Mar. 02, 2005, Accel Partners’ managing partner, James W. Breyer, secretly incorporated ‘Win-in-China’ as first revealed in the HSBC Swiss Bank Leaks. Breyer was appointed chairman of the National Venture Capital Association (NVCA) on May 13, 2004, just as the confiscation of Leader Technologies’ invention by IBM’s Eclipse Foundation was gaining steam.

Also on paper, the Chinese government has 51% control of Alibaba, but this recent $14 billion Silicon Valley investment in Ant Financial aka Alipay—the major moneymaker—gives the Silicon Valley banks effective control of the companies and their profits. In short, they give this control to Hillary Clinton via Axiom and ENTRUST. These convolutions are used to confuse everyone (that’s how they have hidden their treachery), but we now see through these banker shell games.

[Return to this article. We will be adding more financial documents to show these convoluted corporate conspiracies.]

On Oct. 1, 2018, Hillary Clinton’s Axiom / ENTRUST companies officially moved to China.

On paper, Alibaba, Ant Financial and Alipay are majority Chinese owned. But, in reality, American banks and European hangers on like Deutsche Bank, Credit Suisse, HSBC and Barclays, run the show.

This constellation of facts proves that American money from Wall Street and Silicon Valley is enabling China’s dictator Xi Jinping to pursue massive abuses of human rights, as we speak.

As observed earlier, it is past time for American citizens to retake control of our lawless bureaucrats and their accomplices—before the social credit score system is fully implemented on our shores.

WHAT IS YOUR [CHINESE] SOCIAL CREDIT SCORE?

The BEAST is here. What is your SM number?

Drive this bus from China. Hence James’ exclamation that he is “Super bullish on China.”

We must protect the vote. Now. We cannot allow these criminals to hijack any more elections. Free and fair elections are the property of the citizens in this Republic, not the government. We have gone to sleep. Now that we are awake, we must take action across this country in the coming weeks to protect the 2018 midterm elections.

We must ensure an unbroken bipartisan chain of custody. That should be your rallying cry. This will essentially eliminate the imminent danger from rigged electronic voting machines. Back to the future: (1) Paper ballots, (2) Inked thumbs, and (3) Unbroken bipartisan chain of custody! It is really that simple.

Mr. President, please pull the plug on these corruptocrats and their illegal funding streams. Since they are all based on fake values, no real services will be affected.

In addition, write the Miller Act Notice check to Leader Technologies for 18 years of unpaid use of their revolutionary social networking invention—which these Privy Council criminals (Sir Geoffrey E. This will generate new cash streams to free up our economy from the globalist stranglehold. This will also empower Leader Technologies and other actually creative people in America to fix our foundering ship of state. I think most people now realize that China is enemy number one of the USA ... and these NEW REVELATIONS PROVE IT. BUT THEY ADD that Hillary is driving the bus AND IS THEREFORE, HERSELF, ABSOLUTELY, ENEMY NUMBER ONE! SHE HAS to be stopped. Whatever that takes.

FYI after speaking with Tony and the request that Walker speak in re the TSEWA / ERA / HRA and their relation to the Hoover Meyer appointment to the FRB Chair. The important point is that Hoover initiated the “first” New Deal as a little known fact and that the Corporate takeover after S&OP Kennedy collapsed the market and gobbled everything upsiming the Laterin Treaty proceeds lands him the first SEC job in 1933 that remains and or reigns to this day accordingly.

In the context of the post Civil War creation of the administrative state leading to several additional assassinations and eventually the Triat Com creation of the Senior Executive Service in 1978 that are the actual “Deep State” per se who run things acide MultiNational Corporate controlled fourth branch of government, Bill Van Alen and I are about to go back into the USCAF this week on the dilemma posed by the voting machine software represents to the “Redwave” notwithstanding paper ballots; paper that nevertheless are fed through the voting machine software represents to the “Redwave” anyway.

To the extent that no one else is up to the filing we are the only corporation hackers reference a few days ago by VP Pence; and that are part and parcel to both the Clinton and Bush Mafia / Jesuit state leading to several additional assassinations and eventually the Romney Family ties to the QE2 Privy council and Chinese Red Army accordingly.

C. Facebook puppet masters:
81. President Barack Obama (appointed Leonard F. Stark to the judge’s seat in Delaware Federal District Court eight days after Stark’s court allowed Facebook to get away with jury and court manipulation of an on-sale bar verdict which was attained without a single piece of hard evidence, Barack and Michelle Obama were evidently protecting their 47 million “likes” on Facebook)
82. Lawrence “Larry” Summers (Harvard Professor who aided Zuckerberg’s light-speed rise to prominence with unprecedented Harvard Crimson coverage; Obama bailout chief; Clinton Treasury Secretary; World Bank Chief Economist; “Special Advisor” to Marc Andreessen in Instagram—co-creator of the current Russian robber baron economy; close 20-year relationships with protegés Sheryl Sandberg & Yuri Milner; aided in recommendations that created the Russian robber baron economy—and Yuri Milner/DST (Amanuens’s money used to purchase Facebook stock)
83. James W. Breyer. Accel Partners LLP; Facebook director; client of Fenwick & West LLP since the 1990’s; apparently received technology from other Fenwick clients that was shuffled to Zuckerberg, incl. Leader Technologies’ inventions
84. David Plouffe. directed Obama’s 2008 and 2012 campaigns; a self-described “statistics nerd;” likely directed the activities of the Facebook Club; employed Robert F. Bauer, Perkins Coie LLP in 2010 at the Democratic Congressional Campaign Committee
85. McBeel Strategic (one of the main “private” arms responsible for dolling out the billions in Obamas “green energy” stimulus funds; partnered with Cooley Godward LLP)
86. Mike Sheehy (Cooley-McBee Strategic principal; former National Security Advisor to House Speaker Nancy Pelosi)
87. Nancy Pelosi (U.S. Congressmanwoman; appears to be running political cover in the House for Facebook, McBeel Strategic, Cooley Godward, Fenwick & West, Breyers, etc.)
88. Harry Reid (U.S. Senator; Judge Evan J. Wallach patron)
89. Thomas J. Kim (SEC; Chief Counsel & Assoce. Director) approved Facebook’s 700-shareholder exemption on Oct. 14, 2017, one day after it was submitted by Fenwick & West LLP; Facebook used this exemption to sell $3 billion insider stock to the Russians Alishev, Yurii Milner, DST; Digital Sky, Mail.ru which pumped Facebook’s pre-IPO valuation to $100 billion; another Harvard grad, Kim worked at Latham & Watkins LLP which was the chief lobbyist for the National Venture Capital Association in 2002-2004 whose Chairman was . . . James W. Breyer, Accel Partners LLP; in other words Breyer and Kim, both Harvard grads, were associated at the time of the Zuckerberg hacking and theft of Leader Technologies’ software code)
90. Ping Li (Accel Partners, Zuckerberg handler)
91. Jim Swartz (Accel Partners; Zuckerberg handler)
92. Sheryl K. Sandberg (Facebook, Summers protege; Facebook director)
93. Yuri Milner (DST aka Digital Sky, Summers protege; former Bank of America executive; Facebook director)
The plot thickens. Look, with each passing day and Mueller announces nothing America starts to ask the hard questions.

If this was such a slam dunk case, and with the obvious political neophytes like Kushner and Don Jr running an unconventional campaign, one would expect there would be smoking guns all over the place.

With the powers of the state combined with the incompetence of Trump’s team, it is hard to believe there would not be incontrovertible evidence of guilt and collusion.

Bob Linurt. (Oct. 14, 2018). SCHOOL DATABASE PROVIDER SUED FOR GIVING KIDS PORN Articles included How to have too much sex, How to have too anal sex, WND.

A company that provides database resources to public schools, including pornography embedded in computer files, is being sued by the Thomas More Society under Colorado’s Deceptive Trade Practices Act for boasting its products are age-appropriate.

“These databases definitely are not age-appropriate, nor can parents consider them reliable, as EBSCO claims,” said Matt Heffron, the organization’s senior counsel.

Along with EBSCO, the lawsuit names the Colorado Library Consortium, a tax-supported organization that “knowingly” brokers EBSCO’s “pornographic databases to schools and libraries,” the legal organization said.

Colorado law makes it illegal to make false claims to sell a product.

In the second part of this report, we saw that correcting the flagrant misrepresentations and filling in the strategic gaps in Robert Mueller’s July 13 indictment yields a tale that revolves around four important dates in the annals of 2016 presidential election skullduggery: one in March and three over a four-day period in June of that year.

March 19: Clinton campaign chairman John Podesta is tricked into giving away the password to his main Gmail account. As a result, hostile actors gained possession of all of Podesta’s campaign emails; including one containing a file of Trump opposition research.

June 12: Julian Assange announces that his organization WikiLeaks gained possession of and will soon be releasing Clinton campaign emails.

Affirmative Action Trial

Getting into Harvard is hard. But it’s a lot less hard if your family promises to pay for a new building, according to internal emails presented in court on the third day of the Harvard admissions trial.

John M. Hughes, a lawyer for Students for Fair Admissions — the anti-affirmative action group suing the College over its race-conscious admissions policies — introduced the emails in a bid to prove Harvard unfairly prefers the wealthy and well-connected. Hughes read each message aloud before grilling the College’s long-serving Dean of Admissions and Financial Aid William R. Fitzsimmons ’67 on their contents.

Hughes and Fitzsimmons faced off in court Wednesday as part of the high-stakes and high-profile trial in SFFA’s four-year-old suit alleging Harvard discriminates against Asian-American applicants. The trial, which kicked off Oct. 15 in a Boston courthouse, will likely continue for three weeks. If the case reaches the Supreme Court, it could decide the fate of affirmative action in the United States.

The historical background of the creation of the PRC. Lend lease funds, food, and arms from Russia were given to Mao. This is how he defeated the Nationalists…with American taxpayer money…debt formed through the Federal Reserve. In fact, they were given Federal Reserve plates to “print” dollars. China was financed and created from ‘nothing’, but America’s “paid interest” on its creation. If there was ever a reason to declare the debt null and void this is it.

The Centers for Disease Control (CDC) is conducting its annual promotion of flu shots.

It might be worthwhile reviewing some of my past reporting.

Major U.S. government study finds flu shots don’t work in elderly.

When the major study found negative results about the effectiveness of flu shots in the elderly (above link), the government wouldn’t let the scientists who conducted the research do interviews with me.

On another topic, CDC has recently said this stands to be the worst flu season since the swine flu epidemic.

**ORIGINALLY APPEARED IN THE DAILY CALLER**

CNN is reporting that Special Counsel Robert Mueller is using my reputation as a “dirty trickster” to frame a case against me.

Anyone who has read my book, “Stone’s Rules...” or seen the Netflix documentary “Get Me Roger Stone” knows that while I cop to playing hardball politics, I draw the line at breaking the law.

I guess Mueller’s henchman forgot to mention that part when addressing the grand jury. In reality, I’m no more of a dirty trickster than any hardball political player in America today; the only difference is, I’m honest about it. Politics ain’t bean-bag.

Both CNN and the Washington Examiner report that Muller’s minions are showing people my e-mails and text messages from 2016!
