

TYRANNY DEFINED:
United States SCIFs conceal from the citizens the treason with foreign governments (British, Chinese) & "public-private" multinational corporations behind walls of immoral secrecy.

British Pilgrims Society; British Monarchy; Knights of Malta; English Priory; British Crown Court; The City of London; Royal Institute for International Affairs (Chatham House); Pirbright Institute (UK); Rothschild Asset Management (UK); N.M. Rothschild & Sons; Coutts Bank; British MI6, British MI5, British GCHQ, British Admiralty, British Post Office (Royal Mail), British Privy Council, Canadian Security Intelligence Service (CSIS), New Zealand Security Intelligence Service (NZSIS), Australian Secret Intelligence Service (ASIS); British-American "Five Eyes;" Israel Intelligence and Security Agency (ISA); Secretary of State, Department of State (DOS); Center for Disease Prevention and Control (CDC); Secretary of the Treasury (USDT); Secretary of Defense, Department of Defense (USDOD); Attorney General, Department of Justice (DOJ); Secretary of the Interior, Department of the Interior (DOI); Secretary of Commerce, Department of Commerce (DOC); Secretary of Labor, Department of Labor (DOL); Secretary of Health and Human Services, Department of Health and Human Services (HHS); Secretary of Housing and Urban Development (HUD); Secretary of Transportation, Department of Transportation (DOT); Secretary of Energy, Department of Energy (DOE); Secretary of Education, Department of Education (ED); Secretary of Veterans Affairs, Department of Veterans Affairs (VA); Secretary of Homeland Security, Department of Homeland Security (DHS); Office of the President (EOP); Administrator, Environmental Protection Agency (EPA); Director, Office of Management and Budget (OMB); United States Trade Representative (USTR); Administrator, Food and Drug Administration (FDA); Administrator, National Drug Control Policy (ONDCP); Director, Central Intelligence Agency (CIA); Administrator, Equal Employment Opportunity Commission (EEOC); Chairman, Federal Communications Commission (FCC); Chairman, Federal Maritime Commission (FMC); Chairman, Federal Reserve System (Fed); Chairman, Federal Trade Commission (FTC); Administrator, National Aeronautics and Space Administration (NASA); Archivist, National Archives and Records Administration (NARA); Director, National Intelligence Office (DNI); Director, National Security Agency (NSA); Director, National Science Foundation (NSF); Chairman, Nuclear Regulatory Commission (NRC); Director, Office of Government Ethics (OGE); Chairman, Privacy and Civil Liberties Oversight Board (PCLOB); Chairman, Security and Exchange Commission (SEC); Director, Selective Service System (SSS); Commissioner, Social Security Administration (SSA); Administrator, United States Agency for International Development (USAID); United States Peace Corps (Peace Corps); Office of the Chief Administrative Officer (CAO); United States Intelligence and Security Command (INSCOM); Ministry of State Security (MSS, China); Barack H. Obama et al (BHO); George W. Bush et al (GWB); Bill & Hillary Clinton et al (Hillary); Donald J. Trump et al (DJT).

MySQIF™ Privacy App™ powerfully encrypts "data-in-motion." Remarkably, unlike normal public-private AES (Advanced Encryption Standard) key systems, no such keys are needed to read a file by the recipient. All MySQIF™ keys used by the system dissolve after each transaction—called a "one-time pad."

A Sensitive Compartmented Information Facility (SCIF [/skɪf/](#)), is an enclosed area within a building that is used to process sensitive compartmented information (SCI) types of classified information. These areas are expensive to construct and are used mostly by the federal government. The Situation Room in the White House is a permanent SCIF, but they can also be mobile. The entities in the graphic above require SCIFs among themselves and secrecy agreements under penalty of death or imprisonment if the secrets of this cabal are disclosed to the citizenry. This tactic of shut up or we rape your spouse is millennia old—since before Babylon.

The evident truth is that in the United States SCIF secrecy is one-way. The agency, government, or company can keep information secret from the citizenry, but not vice versa. *See Source below.*

The logic used by federal agencies to justify one-way secrecy is that the agency is protecting the citizenry as a kind of benevolent big brother. However, the agency secrecy practices are, in fact, a treasonous ruse since the information that they refuse to share with the citizenry they simultaneously share with foreign powers and multinational fascist organizations.

On Jun. 05, 1946,ⁱ American intelligence agreed to share American secrets with the British government controlled by the British Pilgrims Society ("Five Eyes"). In turn, Secretary of State Hillary Clinton later gave Chinese intelligence secret access to her home email server containing top secret information.ⁱⁱ

Under the ruse of anti-terrorism, anti-money laundering, anti-human trafficking, counter espionage, the American government moved in 1993 to embed a backdoor key into all data encryption, which they did. They simultaneously persecuted encryption providers who resisted their hegemony.

Twenty-one years later, those purveyors of tyranny are old, dead, or too rich to care anymore. Their inept children have seized the reins of self-anointed power.

MySQLIF™ Privacy App™ takes an entirely different tack to standard encryption. It enables a real life “Cone of Silence” that actually works! (the comically inept spy Maxwell Smart’s “Cone of Silence” actually *amplified* his conversations outside the cone rather than masking them). Nothing about the MySQLIF™ service operates in the wild Internet. It is a personal, one-to-one service where the key is used for a split second only on each device before it dissolves like the self-destructive recording tape on Mission: Impossible. It serves American citizens by enabling them to protect their hard-won rights to privacy and property—rights that American agencies only pretend to protect.

A personal SCIF for “data-in-motion” has been out of the reach of the average citizen until MySQLIF™ Privacy App.™ It uses polymorphic encryption that generates tens of thousands of one-time, unclonable keys for a single encrypted file. These one-time key clusters or “shards” are based on unique hardware fingerprints on the sending and receiving devices.

The MySQLIF™ license includes a legal license to use the social networking inventions of Leader Technologies, Inc., a co-developer of MySQLIF™ Privacy App™ on all your personal devices and platforms that have warranted improperly that they offer their social networking capabilities without disclosing their unlicensed reliance on Leader’s inventions.

12-Steps from Sign Up to successfully sending a MySQLIF-protected file. After the first time its only 6-easy steps (7-11) below:

1. Go to mysqlif.com.
2. Click Sign Up.
3. Select “MySQLIF™ Privacy App™”
4. Enter your name and email.
5. Choose your payment method.
6. Download and install the application.
7. Click INVITE.
8. Type the name and email of the person to whom you want to send a MySQLIF-encrypted file.
9. Specify the file and SEND.
10. The recipient will APPROVE.
11. You select ENCRYPT and SEND; Receiver clicks DECRYPT.

Figure 1: The self-destructing recording tape used to recruit Mission: Impossible spies (1966-75, CBS). MySQLIF™ encryption master keys are created, used, and destroyed in a split second for each encryption.

Cost: \$120 per year.

MySQLIF™ Privacy App™ is 100% satisfaction guaranteed or your money back.

Go to mysqif.com to learn more.

Be Moral. Get Legal!

Obtain your legal license to use social networking today by subscribing to MySQLIF™ Privacy App™ today!
